Women's Day celebration- 08/03/2023

A panel Discussion was organised on the occasion of World women's Day.

#### WOMEN'S DAY CELEBRATION AT GANDHI SHIKSHAN BHAVAN

**Date: 08: March 2023**

*"The strength of a woman is not measured by the impact that all her hardships in life have had on her, but the strength of a woman is measured by the extent of her refusal to allow those hardships to dictate her and who she becomes."*

Indeed the above quote not only resonates the power of women but also portrays the zest to always move forward despite their losses. So, to celebrate the women's achievements all over the globe and to mark their existence a small initiative was taken by the students of Gandhi Shikshan Bhavan's Smt. Surajba College of Education on account of this International Women's Day.

A panel discussion was setup for the students and the panel members were invited in our college. Our respected Panel members consisted of women's from different specializations who have already climbed the top of the mountains in their respected fields yet they were here to share their stories and to inspire us As how difficult was it for them to break the shackles in this women oppressed society and how we might be able to understand the suffering of the women's through their stories.

First our respected Principal Madam and all the teachers invited the panellist , introduced each member and felicitated them as well as thanked them that despite being busy they made time for us. After the felicitation ceremony all the guests took their seats. The respected principal introduced our guests to the foundation of our college as well as the Gandhian philosophy that we follow and also how we are carrying forward the legacy, she also discussed our initiative towards the society by the medium of community work. Dr Francis Vaidya one of our teachers introduced us to the importance and history of why we celebrate women's day as well introduced us to the theme of this women's day that was #EmbraceEquity. Where she continued further with the statement which says - Equity is just not nice to have, it is must to have.

The wait was finally over the students were eagerly waiting to have a glimpse of the wisdom that the panel members possess. And so the discussion started with the questions to the panel members. The initiative to ask questions on behalf of the entire college was taken up by Dr. Francis Vaidya -

Where she started with 1st panel member named - Dr Cecelia Chettair - Assistant professor asking her to elaborate difference between Equity and Equality and how in their institution they promotes equity?

- Equity is Raasta, Equality is Manzil. Perhaps a great way to start the discussion. She continued to explain us further by giving us the example of movie "Thappad" where she inferenced the message through the storyline of the movie. Also she introduced the audience to the various welfare schemes for the girls that are been practiced in their institutions to promote the message of equity - such as Project Raaha - Where they identify physically deficient girls and gave them nutritional breakfast in the college

- Project Sanhari - Where they provide ICT training for girls

- Project Raaha - Basically A transgender support group.

Also at last she gave us a very important message about mental health and how it plays a major role in tackling the challenges and how important role a teacher plays in the, school and college as counsellor to tackle this challenges.

2. The second guest was Dr. Gauri Galkwad who can be also be referred to as M/s Versatile, as she is a doctor, an adventurer, a professional dancer.

The question asked to her was - As a women doctor what challenges do women face regards to equity and as a doctor what is her experience and medical facilities provided to women?

- She shared with the story of world's 1st female Dr.Elizabeth Blackwell and how in those days she was criticized for choosing surgery just because she is a women. And she contextualized the same issues that she faced while choosing this career where even after 200 years she is facing the same problems which consisted of unsupportive relatives, biased professors. Even during her clinical practice she faced many different problems in hospital where patients didn't approach her just because she is a women.

But she fought back and rose from the ashes of criticisms and proved to the world that Yes, I will not tolerate this inequality and I will fight and make a name for myself. She requested that the women's should not be totally dependent on their partner but should be self-dependent and be more vocal with their issues. She concluded with the message that Self-priority is more important than others.

3. "No matter how hard or impossible it is never lose sight of your goal"

Next time when you hear the word "dream" We are pretty sure that the face of Lt. Vinita Hublikar will probably come to your mind.

The question asked to her was -What emotions did you experience when you got title of Lieutenant as a women and plans for the society?

- She was very proud when she was awarded the title as her childhood dream was to be a military officer as this field is mostly dominated by male counterparts. She said that even though it was difficult for her and the road to the title was filled with pebbles, she collected them and built a path to glory. She also urged today's girls to follow the same path to greatness. Her plans for the society was a desire to see more representation of women in N.C.C.

**"Tujha asthithva kay"** - A simple yet powerful message for women's to create their own identity. And she concluded with the message of Chase your dreams, No matter what.

4. "There is no greater agony than bearing an untold story inside you."

A dreamer, a believer, an achiever, but most importantly "A Mother". Just think about a mother who doesn't get time to spend with his newborn, her family, just because of her honesty towards her duty. We had our 4<sup>th</sup> panellist Sandhya Khaire - Police Sub Inspector who is a crime branch officer.

She was asked about - Problems faced by her in this crime branch sector and facilities provided to her?

- She discussed at length about how she faced difficulties during this job at initial stage when she had to visit crime scenes which made her puke sometimes but she never gave up and continued to move forward despite the difficulties. She also discussed that when she joined -low salary, no family time and continuous duty were the problems faced by her. She also discussed about the need for family support while choosing the career of your choice. And concluded with the message that - She wants to serve the society till the end as well as motivate girls in education field and uplift them.

5. The last guest Smt. Jayshree Ratan Mam who works for the breast cancer patients through her SAISHA India foundation. They work for awareness of breast cancer and they have made knitted and crocheted cushions that look like a breast which a woman who has lost one of her breast can make a use of it. They are made up of cotton and are recyclable.

So, with the last question the panel discussion ended and now students were given chance to ask question to the panel and clear their doubts. The Vote of thanks was delivered by the students of FY B.Ed and SY B.Ed. And the event concluded with the appreciation to all the panel members and with the national anthem.

All of us do not have equal talent, but all of us should have an equal opportunity to develop our talent"

So Post-Panel discussion the college assembled together on the account of International Women's Day celebration to bring the above quote to practice and organised a **'TALENT FAIR'**

Talent fair was organized by the women development cell themed #EmbraceEquity where students were given a chance to present their entrepreneurial skills as well as to showcase their talent. The college ground was decorated for the purpose and students were given separate stalls to showcase their talents. After the ribbon cutting ceremony initiated by our respected principal mam Students started to assemble their goods on the stalls. Students made their own stalls by using different creativity methods. Stalls consisted plethora of items showcased from pin to piano.

"You are not quite dressed until a pair of earrings add sparkle". One of our students was here to add sparkle to your beauty by selling handmade clay ear-rings which were so unique and were of different shapes, sizes and even customizable. To relish yourself on a hot humid day we had authentic Punjabi Lassi combined with Chole & Pav. Mouth-watering isn't it. We had our students selling key chains as well as self-made portraits. Mehendi one our country oldest traditions was also included in the talent fair. We had delicacies from - Sev puri to Chinese bhel. Every meal is incomplete without a dessert. To fulfil this part we had our students selling home-made Cakes and Gulab jamuns.

All the guests and students attended the fair and they were quite enjoying themselves. The stalls were properly organized and after eating all the waste management was also done properly. All the young talent presenter-cum-entrepreneurs had their own experiences after the event when the survey was taken the outcome was that sweets and food was mostly preferred over the other items. All had their own share of profits meanwhile some had their losses. But every student had enjoyed so much and had such a great learning experience.

- SHUBHAM TRIVEDI  
(F.Y. B.Ed – Roll No: 46)

Visits to special schools – The visits were organised for the Subject Creating an Inclusive School for S.Y. B. Ed course semester 4. The students were given an opportunity to observe functioning of special schools and interact with students ,teachers and other staff. The visits were organised to Shruti School for Hearing and Speech challenged, Autistic centre etc.

Visit to Shruti School – 28/03/2023

---

**Title: Report on Visit to Kamla Dharamshi Narsee Shruti School for the Deaf**

**Date of Visit: 28th March 2023**

**1. Introduction:**

On the 28th of March 2023, our college organized a visit to the Kamla Dharamshi Narsee Shruti School, Juhu Mumbai which is a renowned educational institution dedicated to serving the needs of deaf students. The purpose of this visit was to gain insights into the unique educational practices, facilities, and overall learning environment provided by the school.

**2. As we Reached we were given some background information about the school**

Kamla Dharamshi Narsee Shruti School, located in Juhu Mumbai, has been catering to the educational needs of deaf students for over two decades. The school offers a comprehensive curriculum designed to empower deaf students and enable them to overcome communication barriers, maximize their potential, and integrate into society.

**3. Facilities and Infrastructure:**

During the visit, we were impressed by the school's well-maintained infrastructure and facilities that were specifically designed to support the needs of deaf students. Some notable facilities included:

- Classrooms equipped Visual aids, and appropriate lighting for optimal visual communication.
- Resource center with assistive technologies to facilitate learning.
- Dedicated therapy rooms for speech and language therapy, audiology, and counseling.

**4. Educational Practices:**

The school employs various educational practices to enhance the learning experience for deaf students.

Some key observations during our visit included:

- Normal language as the primary mode of communication in classrooms, enabling students to be used to and ready for integrated classrooms
- Skilled teachers and support staff who are proficient in sign language and possess specialized training in educating deaf students.
- Multisensory teaching methods that combine visual, auditory, and tactile stimuli to reinforce learning.
- Inclusion of extracurricular activities such as sports, arts, and cultural events to foster holistic development and enhance social skills.

**5. Technology Integration:**

The school demonstrated a commendable integration of technology to support deaf students' education.

Some notable technological tools and aids included:

- Assistive listening devices and cochlear implants for students with partial or residual hearing.

**6. Conclusion:**

The visit to Kamla Dharamshi Narsee Shruti School provided a valuable opportunity to witness the excellent work being done to support deaf students' education and well-being. The school's commitment to providing a nurturing environment, specialized educational practices, and technological integration was truly commendable. It was evident that the school's efforts have a profound impact on the lives of deaf students, enabling them to overcome communication barriers and thrive academically and socially.

Overall, the visit was an enlightening experience, leaving us with a deeper understanding of the challenges faced by deaf students and the effective strategies

Sopan Autistic Center visit – 05/04/2023

**Visit Report: Sopan Autistic Center**

**Date: 5th April 2023**

**Location: Natwar Nagar BMC School Building, R.K. Singh Marg, Andheri East, Mumbai – 400053**

**1. Introduction:**

On the 5th of April 2023, our college Students had the opportunity to visit Sopan Autistic Center, a non-governmental organization (NGO) dedicated to supporting individuals with autism and developmental disabilities. The center is located in the Natwar Nagar BMC School Building, situated on R.K. Singh Marg in Andheri East, Mumbai.

**2. Overview of Sopan Autistic Center:**

Sopan Autistic Center, also known as Samarpan, is a renowned NGO in Mumbai that has been working tirelessly for the welfare of individuals with autism and developmental disabilities since its inception. The organization aims to create an inclusive society where individuals with disabilities receive the care, support, and opportunities they deserve.

Sopan Autistic Center provides a range of services, including early intervention, therapy, vocational training, and educational support. They have a team of dedicated professionals who work closely with individuals and their families to improve their quality of life and help them become self-reliant.

**3. Visit Experience:**

Our visit to Sopan Autistic Center was both informative and inspiring. Upon our arrival, we were warmly welcomed by the staff members who shared insights into the organization's mission, vision, and the services they provide. The visit comprised various activities designed to give us a holistic understanding of the challenges faced by individuals with autism and developmental disabilities and the initiatives taken by the NGO to address them.

**3.1 Facility Tour:**

We were given a comprehensive tour of the center's facilities, including therapy rooms, classrooms, vocational training workshops, and recreational areas. The center had a vibrant and positive atmosphere, with colorful decorations and well-equipped spaces designed to cater to the unique needs of individuals with autism.

**3.2 Interaction with Individuals:**

One of the highlights of our visit was the opportunity to interact with individuals receiving services at Sopan Autistic Center. We engaged in various activities such as art therapy, group discussions, and

**Gandhi Shikshan Bhavan's**  
**Smt. Surajba College of Education**  
Conducted by Indian Council of Basic Education

games. This firsthand experience allowed us to witness the incredible potential and talents of these individuals and understand the importance of providing them with adequate support and opportunities.

**3.3 Interactions with Staff:**

We had the privilege of engaging in discussions with the dedicated professionals working at the center.

They shared valuable insights into the challenges faced by individuals with autism and developmental disabilities and the strategies employed by the organization to support their overall development. It was evident that the staff members were passionate about their work and deeply committed to creating a positive impact in the lives of the individuals they served.

**4. Impact and Lessons Learned:**

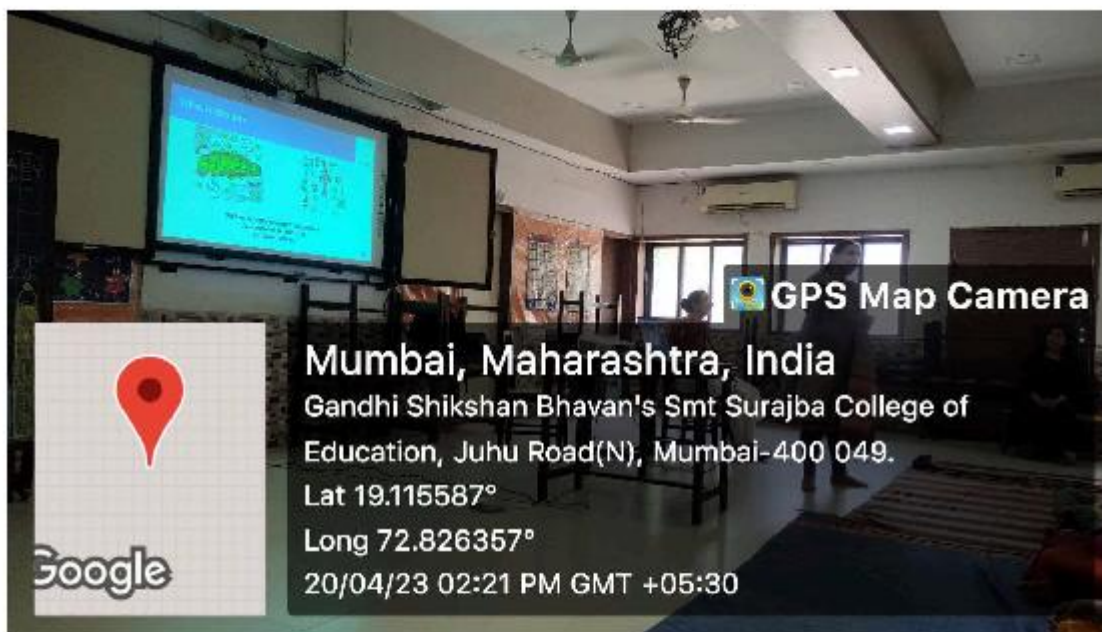

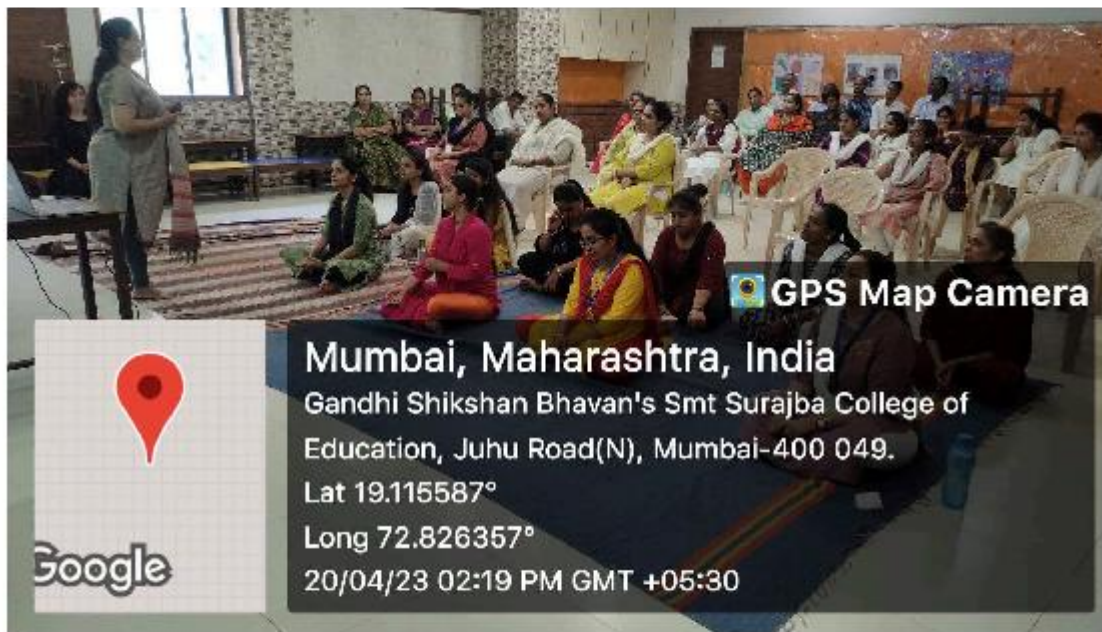

The visit to Sopan Autistic Center left a profound impact on our group. We gained a deeper understanding of the challenges faced by individuals with autism and developmental disabilities and the importance of creating an inclusive society. The dedication and expertise of the staff at the center showcased the transformative power of early intervention, therapy, and vocational training in improving the lives of individuals with disabilities.

We also learned the significance of empathy, patience, and individualized support in facilitating the growth and development of individuals with autism. The visit served as a reminder that every person, regardless of their abilities, deserves equal opportunities to thrive and lead fulfilling lives.

**5. Conclusion:**

Our visit to Sopan Autistic Center was a remarkable experience that provided us with invaluable insights into the field of autism and developmental disabilities. We extend our heartfelt appreciation to the staff and individuals at Sopan Autistic Center for their warm hospitality and dedication to making a positive difference in the lives of those they serve.

Dhayn Yog workshop – 24/04/2023

**Gandhi Shikshan Bhavan's**  
**Smt. Surajba College of Education**

Conducted by Indian Council of Basic Education

---

**Report on 3-Day Yoga Workshop at Gandhi Shikshan Bhavan Smt. Surajba College of Education**

**Introduction:**

A 3-day yoga workshop was conducted for the teaching and non-teaching staff of Gandhi Shikshan Bhavan Smt. Surajba College of Education from 20, 21 & 24th April 2023. The workshop aimed to introduce participants to various aspects of yoga, including asanas (postures), pranayama (breathing exercises), mudras (gestures), meditation, and yogic transmission. The sessions were held from 2 to 4 PM each day.

The workshop commenced on 20th April 2023 with an introduction to yoga and its benefits. The participants were briefed about the importance of incorporating yoga into their daily lives for physical and mental well-being. The session began with a warm-up and stretching exercises to prepare the participants for the asana practice.

After the asana practice, pranayama techniques were introduced. Participants were taught deep diaphragmatic breathing, alternate nostril breathing (Nadi Shodhana), and Kapalabhati (Skull Shining Breath). These techniques aimed to calm the mind, increase energy levels, and enhance focus and concentration.

Gradually the workshop, then focus shifted to mudras and meditation. The participants were introduced to various mudras.

**Sports Day- 04/03/2023**

The final sports day was celebrated on 4<sup>th</sup> March 2023 for both F.Y..B. Ed. and S.Y. B.Ed. students. In the previous week the screening round and semi-finals were conducted for both indoor and outdoor games. The indoor activities included carom, chess competitions while outdoor games consisted of lemon spoon race, three legged race, running -100 meters and 200 meters and relay race-100 meters and 200 meters, Tug of war etc. This sports Day Outdoor activities were organised on Juhu Beach. For each event three winners were declared and the winner students were awarded with the certificate.

# Year 2022

Mani Bhavan- 19/03/2022

### Visit to Mani Bhavan Gandhi Sangrahalaya

On 19th March, 2022, Gandhi Shikshan Bhavan's Smt Surajba college of education students visited Mani Bhavan Gandhi Sangrahalaya which is situated in South Mumbai. We reached the museum at 9 am and entered the museum when everyone arrived. As we entered on the ground floor we saw that there were many pictures, postcards of Mahatma Gandhi and there was information given about each picture. There were pictures of Kasturba Gandhi (the wife of Mahatma Gandhi), Shrimad Rajchandra (Gandhi's mentor) and many other significant people who were connected to Gandhi in some way. There is a statue of Gandhi at the center. The library in the Sangrahalaya consists of more than 40,000 books and many periodicals. The books in the collection are more or less about Gandhi, his thoughts, and freedom fighting movements. Some books were even owned or read by Gandhi. There were spinning wheels (charkha) hanging on the wall for display. As we went on the first floor, there were more pictures on the staircase walls as well. On the first floor, the rooms on either side of the exhibition have been turned into a Picture Gallery which gives glimpses of Gandhiji in Mani Bhavan and important events in his life. It displays photographic posters depicting important events and photostats of some significant letters, articles and documents written by and about Gandhiji with appropriate captions in Hindi and English. A few replicas of Gandhi's belongings and models of his birth place, Sabarmati Ashram, Sevagram Kutir, Phoenix Ashram and his prison cell are also on display.

On the second floor of the building, a room, which was used by Mahatma Gandhi as his living room and working space, has been maintained. Adjoining Gandhi's Room is the exhibition depicting Gandhi's life through mini figures which portrayed every important incident of Mahatma Gandhi in about twenty-eight tableaux, prepared by Smt. Sushila Gokhale-Patel. We learned a lot through this exhibition as many significant movements started from this place. It is a place where in 1921 Mahatma Gandhi did a four-day fast to restore peace in Mumbai. It was very interesting museum which is dedicated to Mahatma Gandhi. We could see the real life things which were used by Gandhi, most of the things which we had only read about. We left by 1 pm after visiting each floor.

Vasant Ustav celebration – 13/04/2022

#### Morning at vasant utsav: colour ceremony

program starts with prayer, prayer is part of our every program. After prayer everyone was excited to perform their performance or their act then program started with shlok dance and moved towards the speech and celebrations of vasant utsav started in that we understand the Actual meaning of vasant utsav and reason behind that why we celebrate in that many performance was performed by each student some of them performer individual come in groups in that all dance forms, skit Drama Songs included each act gave us lots of information about vasant Utsav Many the dance, performance on the land. 5- element. of nature, and related to the celebration in different culture. In that we understood that vasant utsav is colourful Festival and how this festival is celebrated in the different state their way of celebrations we also got many information by presentation In that presentation they explained about different religion How they celebrate vasant according to their Culture so from that we learned New things and this presentation was informative . interesting Many of the act based on the farmers, Agriculture the revolutionary Act in that they explained. that How Farmer is important in our life, and Agriculture revolution happened in what way. through this act they explained their life struggle and their culture we learned that the agriculture Revolution why this important for us or every one If farmer will not in farm we won't get anything to eat anything this Act realises

Us the importance, of Farmer in our life.

In the celebration there were many acts which showed us unity and diversity basically India a diverse country In that we include all regions persons/peoples are. We all Stay together happily. That means India is diverse, but all people live together that shows unity in diversity From the Act we learned we should respect all religion in our country live happily.... with everyone

This whole celebration gave us lot of information in about each and every culture values and many more so as a teacher we should inculcate that we respect and celebrate, all this festival in the school so students develop their thinking and also learn new things.

Maharashtra nature park visit- 28/04/2022

**REPORT ON FIELD TRIP**  
**TO**  
**MAHARASHTRA NATURE PARK**

**Submitted by**  
**Gandhi Shikshan Bhavan's Smt. Surajba College of Education, Juhu**  
**Versova Link Rd, Sainath Nagar, MHADA Colony, Juhu, Mumbai,**  
**Maharashtra 400049**

## MAHARASHTRA NATURE PARK SOCIETY

With the gracious contribution of the Government of Maharashtra, MMRDA, WWF, Dr. Salim Ali and other significant stakeholders, the Maharashtra Nature Park Society symbolizes the transformation of a dumping ground to an abode of the diverse flora and fauna. The park was declared open to the people on 22<sup>nd</sup> April 1994-“Vasundhara Divas-World Earth Day”. The park is now converted into an Environment Education Park and thousands of students as well as visitors visit the park every year for the study of Nature and Environment related issues.

Managing a garbage Dumping site is a global problem now for almost all the countries. MNP being a trend setting solutions for this problem. People from different cities and various countries pay special visit to the park to see the efforts and to experience the effects. The efforts made here are well appreciated by all the people including dignitaries and the scientific community across the world.

The park aims to provide the citizens of Mumbai a quick change to relatively green and unpolluted area and to educate the people, particularly children in Ecology and Nature Conservation.

The park is presently involved in number of activities related to Nature Conservation and Environmental Education. The park has different sections to explain the various aspects of nature education. Some of them are as follows:

- **Butterfly Garden:** Study of butterflies includes knowing their local host plants, the flowers they visit and pollinate, their survival strategies like camouflaging and mimicry and whatnot. In the congested city like Mumbai, creation of butterfly garden was also very instrumental in conservation of (and thereby increase in number of) butterfly at MNP. It is delight for the eyes to have them in such huge numbers, today the total count has reached to 85 species. Butterflies are indicator of good quality of air (something

which is always missing in big cities like Mumbai) and therefore creating a Butterfly Park is an education maintaining a better quality of the air.

- **Nakshatra Van:** Ancient Indians believed in astrology (many still do!). Indian astrology classifies a human being into 27 group as they are considered as born under specific constellation-the Nakshatras. There are 27 constellation's, and each has one plant (tree, shrub or herb) associated with it. Whatever be the merits of their beliefs regarding the heavens, there is no doubt that here on earth its proponents were meticulous documents of nature. More in keeping with the emotional connections that are associated with such myths than any science, different trees and plants finding mention in ancient texts have been planted in a circular garden, called the "Nakshatra van". Many visitors find this to be an inexplicably peaceful part of the park and can be seen quietly meditating under the shade of its now well-developed trees.

- **Rain Water Harvesting:** During the dry months of winter and summer, the MNP requires an average of 45000 to 1 lakh litre of water daily, most of it for irrigation purposes. This makes the Nature Park depends mostly on the municipal water supply, with some of the demand met from other sources. The Rainwater Harvesting Projects has been conceived and designed to make the MNP almost completely self-reliant for its water requirements. When fully operational it will ensure that nearly 2.5 crore litres of water is collected from the surrounding landscape, including the rooftop of the Education Centre Building. The storage pond will also result in wetland habitat of nearly an acre in extent and help attract additional fauna. This important project also makes a perfect back drop for setting up platform to provide information and as demonstration site, on rain water harvesting.

Thus the institute encompasses a wide variety as well in terms of the exquisite flora and fauna, amphibians, reptiles, spiders, etc.

SUPW craft session- 12/05/2022

**GANDHI SHIKSHAN BHAVAN'S SMT. SURAJBA  
COLLEGE OF EDUCATION**

Report on Socially Useful Productive Work – Workshop

12<sup>th</sup> May, 2022

Thursday

In today's technosavy world, there are people who are still struggling to get one time meal for themselves. They are not only the underprivileged or marginalized citizens of India but also there are such people around the globe. In such a scenario, due to lack of education and unemployment, people indulge in activities to construct objects from used or left out materials e.g. creating pillows by using cutout pieces of fabrics, mattress-like (commonly known as godhdi in most Indian societies), creative decor items such as wall hangings, photo frames, etc. (which is popularly known as SUPW- Socially Useful Productive Work) which initially become their source of income and later may help them to raise their standards of living and being self-dependent. SUPW is a vocational course which are taught in many Indian schools where students can choose to do courses like painting, craft making, gardening, knitting, cooking, carpentry, glass painting, and many such other craft and hobbies. Nowadays, even the employed people are making this as a side business in order to promote their hobbies.

This SUPW workshop was also organized in our college, to make us learn some skills and become self-reliant. On the morning of 12<sup>th</sup> May, 2022, after finishing the prayer assembly and yoga, the SUPW workshop was commenced. Firstly, Prof. Sabiha More ma'am introduced us to the SUPW program and its objective followed by the guidance of teacher Gracy Ma'am, who taught us to make wall-hanging. To make this, all the students were asked to bring some unused cotton fabrics and hard cardboards like the rigid covers of used books or cartoons, pair of scissors, etc. She then instructed us on how to start with the wall-hanging by showing the sample and providing 3-4 stencils of different shapes necessary throughout the session. We then made the cutouts by tracing the stencils provided to us followed by pasting the fabrics of contrasting colours. All this was done on the first day of the workshop (i.e. on 12<sup>th</sup> May, 2022). The workshop was continued on 17<sup>th</sup> May, 2022 by first assembling the shapes in proper sequence and decorating the birds with beads, pearls and other customaries and then aligning

the birds on the string with the help of a glue. In doing so, we learnt the quality of sharing. Gracy ma'am is really great. Her instructions were really clear.

Through this workshop, along with learning to make wall hanging, we also learnt many social qualities of which one of the best quality is "sharing". There's a proverb, "Sharing is Caring", and we realised it's so true, every student from the class knowingly or unknowingly was involved into sharing because none of us could manage to complete with this artefact. This shows the importance of sharing. We also would be grateful to Gracy ma'am for bringing this artefact to us and the teaching staff and to all former authorities of Gandhi Shikshan Bhavan's Smt. Surajba College of Education for taking this initiative through which we learnt many social values like spreading smiles, kindness, being selfless lot from Gracy ma'am.

We would suggest to make us learn more such new craft making which will help us develop skills like creativity, critical thinking by brainstorming make it a source of earning.

#### SOME PICTURES FROM THE WORKSHOP:

Seminar on Open Education Resources (OER)- 18/05/2022

Conducted by Indian Council Of Education

Report on Expert Talk on OER & Creative Commons License

18<sup>th</sup> May, 2022

Wednesday

We very eagerly started for the joint venture on Open educational resources & Creative Commons Licence with Lord's Universal College of Education. The event was organized by Gandhi Shikshan Bhavan's College of Education on 18<sup>th</sup> May, 2022 at 10:30 am. It was a collaborative program with the Lord's Universal College of Education. The program was organized to introduce us with Open Education Resources & Creative Commons License through expert talk. The program coordinators for the expert talk were Librarian Dr. Pradnya Bhosekar from Gandhi Shikshan Bhawan's Smt. Surajba College of Education.

As it is our college tradition to start any event by remembering the Almighty, our prayer group students sung Sarvdharama Prayer and the song "Hum Shikshak Hain", very beautifully. Then our Principal, Dr Sunayana Kadle gave a warm welcome to the guest speaker Dr Meghana Sanjeeva. Followed by a brief introduction of the guest speaker by the Librarian of Lord's Universal College of Education Ms Sheetal Dhotre. Further the talk on the Open Educational Resources and Creative Commons License by the guest speaker started.

She introduced us with what is OER, its history, importance, various types, resources of OER as well as OER and role of educators. Further she told us about what is Creative Commons License. And how we as a teacher can use these open educational resources in our teaching practices. Then after that the question answers session was conducted in which students of both collages participated and asked their doubts to Meghana Ma'am. After that a vote of thanks was given by Dr Pradnya Bhosekar ma'am to end the talk.

This expert talk by Dr Meghana Sanjeeva Ma'am was very interesting and informative for all of us in which we got to know about open educational resources. Before this session, we knew very little about it. After this session we also got to know various links and website where we get free open to all educational resources which we can use for our benefits. As well as this will also help us in our teaching career. Thus, the session was really helpful. At last we all stood for National Anthem and ended the program.

Azadi ka Amrut Mahotsav -- Rakshabandhan and Kavita vachan din celebration – 11/09/2022

## **Gandhi Shikshan Bhavan's Raksha bandhan celebration with Indian army.**

On 11 August 2022, 5 students from 'Gandhi Shikshan Bhavan' got the opportunity to visit Military camp of Kalina University, Santacruz with the help of Prof. Miss Yogita Mandole and the principal of Gandhi Shikshan, Mrs Sunanya Kadle who initiated by taking permits from Captain Shinde and Captain Naik.

The students gathered at Patukala College in Santacruz at 8.30 am and were taken to the military camp by 9.45 am. After a thorough checking of 20 mins the students along with Prof. Yogita Mandole entered the area. The area was in the cradle of nature which allowed the students' to experience a soothing environment which was unexpected in Mumbai.

The students at first were taken to a unique temple where deities of all religious gods including Ganpati, Krishna, Ram, Alah, Waheguru etc. were present. The students were made to sit in the temple along with the Indian army. A very soothing speech was delivered by temple poojaris in order to make their minds calm, clean and importance and unknown facts about raksha bandhan were delivered by the two. The talk was followed with Onkar meditation which bestowed in the students a pleasant and positive attitude.

After the session Indian army stood in a queue and then rakhi was tied to each by the students. There were soldiers who had no sister and who saw their sister in the students and the teacher. Miss Yogita Mandole got her brotherly attachment with a soldier and that soldier too got attached to her, which depicted how small is the world and what we finally need is love, care and people.

There were also soldiers who cannot celebrate Raksha Bandhan with their families as they are away, so they went to their quarter, got the rakhi which was posted to them by their beloved sisters and asked the students to tie it to them.

This made all the students emotional and aroused in them a feeling of love, compassion and lot of respect for Indian army and their sacrifice.

There was also a young soldier who was a three star and he narrated his story where he mentioned that his brother is in navy, he is in army and his father was in air force. This fact arouse a feeling of pride that how a whole family which is Indian by blood is ready to shed blood for the safety and security of our mother nation.

After the rakhi ceremony the students delivered speeches to thank Indian Army for their love and sacrifice for the country and portrayed respect for them. After the thanks giving the Army brothers gave chocolates to their sisters and also had breakfast with them. The students were overwhelmed by their hospitability.

The students were very emotional yet satisfied and experienced true happiness of raksha bandhan where they tied rakhi to the brothers who protect us daily , every time, every hour, min, second and day.

The students and Prof. Yogita Mandole left the place by 11am with a heavy yet satisfied heart and made their way back to college for Kavya wachan at Gandhi Shikshan Bhavan.

Expert talk by Afroz Shah- 12/09/2022

Nehru Science Center- 12 to 16 september 2022

## Nehru Science Centre: Report

Good morning to one and all present over here. I deem it a great honour and privilege to deliver today's report on TTP i.e Teacher's Training Program. This TPP was organized for all science and maths students. It was a five days Training i.e from 12<sup>th</sup> September onwards to 16<sup>th</sup> September, which was held in Nehru Science Centre for all the students of science and maths stream. So before commencing with the events and sessions that were arranged. I would like to apprise a short history/information about NSC (Nehru Science Centre), it's establishment as well as it's location. National Council of Science Museums (NCSM), the parent body of NSC, Mumbai, is an autonomous society under the Ministry of Culture; Government of India. NSC is the largest interactive science centre in India. It is located in Worli, Mumbai. The centre is named after India's first Prime Minister, Jawaharlal Nehru. In 1977, the centre started with the 'Light and sight' exhibition, and then in 1979 a science park was built. On 11 November, 1985 the full-fledged science centre came into existence and was finally opened to public by PM Rajiv Gandhi. It has the best infrastructure and skilled manpower to conceptualize, design, develop and organize high quality science exhibits and other related educational programs and activities.

Nehru Science museums and centre provides lifelong engagement by providing access to real things – objects, phenomena and people; through creating shared, engaging and memorable learning experiences for families and adults. They also provide experiences that benefit teachers and complement school science lessons. 11-Jun-2013.

Nehru Science centre stimulates curiosity, develop inquiring minds and expose children and adults to positive new experiences. They help people to cope with the rapidly changing technological environment, and empower them by improving their life skills.

As we are all aspiring teachers Nehru science centre is indeed a blessing for each one of us it has got everything related to history, geography, science, maths, language, art and craft as well. Science centre consist of surpassing teaching aids that can be beneficial and useful for us,

with the help of such advanced tools and facilities we teachers can make our teaching effective, interesting, distinctive and comprehensive.

12<sup>th</sup> September, Monday was the first day at Nehru Science Centre. All of us reached sharp at 10:30 at the location. 11:00-11:15 was the time assigned for the registration process. The day was inaugurated with the blessings and guidance of Mr. Kumar Sir, The Director of Nehru Science Centre. We were all pleased by his words and we're ready to participate actively in each and every event as well as activities. First and foremost, all of us were introduced with various tools, types of tools, their evolution and timeline of tool development along with this we were explained about industrial revolution and their occurrence with the help of a PPT. This above session was conducted by the curator, Jain Sir. There after at 2'o clock we were all asked to assemble in activity room where Dharmik Sir gave us a short introduction on teaching aids and how they can be advantageous for us along with this small explanatory session. Sir with the help of some materials taught us different kinds of teaching aids that includes 'Area of circle, Circle and it's diameter and Pythagoras theorem '. The teaching aids taught to us were uncomplicated yet advantageous and productive.

13th September, Tuesday was our second day of teacher's training. Each one of us reported at 11:00 am. There was a small gallery visit arranged for us. i.e. Science for children. All of us visited the gallery we're all accompanied by Shashwat Sir who was the instructor and guide as well for us and he did explain each and every exhibits really well. The gallery consisted of

plethora of energy models, it had lazy saw, harmograph, planetary motion, grand shuttle and rising arc. We had a fun time exploring the gallery and learning something interesting and innovative at each and every step. Followed by this visit, we were shown a 3D show. This show depicted the life of all aquatic animals and how they came into existence. Along with this we're shown a science Odyssey show related to space and life of humans in space, their struggles, success and achievements. There after at 2 pm again we had a fun activity session i.e making of teaching aids. The session was directed by Dharmik Sir. He taught us the process of making Electric DC motor and brain model. All of us were highly enthusiastic and took keen interest in the preparation of these models and the session ended well.

On Wednesday 14 September 2022 we reached NSC at 11 o' clock to visit the gallery show on sound and hearing. It showed doppler effects, delayed sound and all parts of the ear and their function and different sounds created by different animals, sound effects passing from material and air

After that from 12 o' clock we started to visit the machinery world with Nisha ma'am. She told us all compact arrangements of circuits from the previous computer till the latest computer, artificial intelligence sensor, screen bioinformatics recording, remote sensing topological map etc.

From 12:30 onwards we headed to the activity room where Iqbal sir had demonstrated REEDORECTEN which is a shortcut of 10 major reactions from that he had demonstrated some amazing reactions we were unaware.

One of the reaction was water +  $\text{Na}_2\text{CO}_3$  + naphthalene balls +  $(\text{CH}_3\text{COOH})$  vinegar water  $\rightarrow \text{CO}_2$  release . The naphthalene ball was surrounded by bubbles of  $\text{CO}_2$  and some movement was seen in naphthalene balls. This reaction showed that the volume increase and density decreases.

#### **From 2 to 4:00 Foldscope**

Rajesh sir had given clear instructions about foldscope. This was really amazing as a biology student I loved this activity. Foldscope combines low-cost materials with precision optics to create inexpensive microscopes that are affordable for communities worldwide. With a magnification of 140X, Foldscope can visualize tiny things like bacteria and microorganisms as well as larger samples like insects, plants, fabrics, and tissues. Foldscope can also attach to mobile phones for imaging. This portable microscope is also waterproof. With that versatility, the possibilities are endless!

It was developed by Manu Prakash and designed to cost less than one USD to build. It is a part of the "frugal science" movement which aims to make cheap and easy tools available for scientific use in the developing world.

**15th September 2022**

From 11am to 12:10pm.

After reaching Nehru science center we entered into a simulator ride machine to provide a realistic imitation of the control and operation of a vehicle. It had a screening ride film called the Great Wall of China. Here we were guided by a crazy old man with a rocket powered chariot. It was a bumpy ride. The time duration was approximately 10minute.

After this we headed to aviation and space enthusiasts, the newly launched Hall of Aviation and Space at Nehru Science Centre is really amazing. Sir explained about the principles of flight and model design. The hall takes its visitors on tour using interactive exhibits, stories, models, artefacts, participatory visualization tools, scale down 3D models of aircraft, helicopter, spacecraft, rockets, and much more.

It also covers early contributions of early pioneers fundamental of flight, air traffic control, history of civil aviation in India, hot air balloons etc.

There is a dedicated corner for Chandran1, Mangalyaan and Astrosat

After space and aviation gallery we started exploring the gallery hall of evolution and our Technological Heritage. Here in this gallery, we came across the origin of different mathematical formulas we use today. Also, we saw different building, architecture, pottery, perfumery, craft, of ancient and medieval India.

From 12:15 to 1pm we went for the show Science on a sphere. In this show Rajesh Sir explained us about atmosphere, geographical features and history of all the planets of our solar systems. This show provides a real time atmospheric and climatic data that is a projected on the 1.8-meter spherical Earth globe. The giant animated sphere appears to be floating in midair and even rotating on it's axis. We have seen ocean and continents in their actual colour just as our planet appears from outer space. It was an excellent visualisation education research tool to learn the earth and space system in three-dimensional format.

From 2-4pm Manju ma'am told the story of Archimedes how he found the solution about given task. That is all about when any object moves or placed in a water especially heavy object it's displace the amount of water that's equivalent to objects weight.

And ma'am showed us that experiment by using standing water and a metal object .and also told us when we took a scale in our figure in such a way and move from one side, it move from other side also due to the friction and force. And many more things told us about physics. After that she told us to make that and we made it in a proper way. Here the 4th day ends.

**On 16 September**

On the last day of our Teacher's Training Program, we started with Mirror gallery where we saw some amazing properties of different kind of mirrors related to reflection and refraction

phenomena. Then we moved to high voltage current gallery there we saw Lichtenberg Tree, Jacob's Ladder, Arcing Horns and Tesla coil. Also, few of us got the chance of being in Faraday cage under the 1.5 million volts current.

After that Rajesh Sir demonstrated us about the different applications of liquid nitrogen. Rajesh sir demonstrated some experiments which really amazed us. He told us that they have used liquid nitrogen for cryogenics which replaces the welding of metals so in each instrumental part this liquid nitrogen was used by replacing the welding.

The director of NSC UMESH KUMAR sir give their introduction to us and shared some own life story. And remind us today is OZONE DAY give brief information about ozone layer and harmful gasses. After all these both the colleges gave a vote of thanks and certificates distribution session started UMESH sir gave the certificates to each and every students and in this way our 5 days program successfully ended.

We are really thankful for our management our principal Dr. Sunayana Kadle and Professor Vaishali Dhavare who has arranged this wonderful teacher training program. Time spent in the Nehru Science Center was one of the best learning experiences ever. All the staff members were very supportive, and we got to learn a lot from them. Being a science and maths student, it was the first time some for some. Of us to visit the NSC. We got the opportunity to learn science by performing, as the Director mentioned "learning by doing". The centre is so waste we feel like going again and visiting some of the parts we might have missed. Making teaching aids were very helpful as they taught us how to teach science in much better ways. which will enrich our content and teaching. Demonstration shown at the last day was the best part of workshop. Thank you. Please share your experience of workshop .

International beach cleaning day- 17/09/2022

### Save beach from plastic trash:

#beatplasticpollution

We B.Ed students of Gandhi Shikshan Bhavan volunteered cleaning plastic waste across the beach for two hours at Versova beach. Many of these students from different institutions also volunteered on a large scale in this beach clean-up campaign played by Afroz Shah. It helped to take away the last chunk of plastic waste

from fish species which have been found not only eating them but also retaining them in their bodies, eventually harming a section of Mumbai's health for whom the fish has been a staple. We were surprised to see a large chunk of plastic bags, chips packets, etc. all over which is not just difficult to clean off the sand eventually becoming a forced food chain for fish which caused damage to the entire food chain.

Afroz Shah sir and his team Citizens and students to beat plastic pollution and suggest ways for a circular economy constantly if every week since last one year. All the students of our college participated in the beach clean up campaign from 8 AM 2:10 AM we covered a large amount of area cleaning. And after the beach clean-up session later he also distributed food as a gesture of appreciation. It was a fun and learning experience for every one of us.

Vacha Camp- 23/09/2022

## Report: Vacha training session

Antara Parashar  
Roll no: 30

From the 23rd to the 25th of August, 2022, F.Y.B Ed students of Gandhi Skhikshan Bhavan attended a residential training conducted by Vacha- in the Yuva center at Kharghar. During this period, a variety of topics were introduced regarding gender and the structures prevalent within our society.

On the 24th, post lunch we had a session on "Intersectionality and Power walk" conducted by Mr. Pravin Thote. After an ice breaker, the session began with a demo, followed by an activity called the Columbian Hypnosis. It required the participants to work in pairs to lead one another through a space as one participant followed another participant's hand. The partner with the power would move their hands and the other partner's face had to follow keeping 1 feet distance. After one round of this, the power to guide the other was exchanged. In the third round, both partners would guide the other and also follow the other's hand. After this, we discussed our experiences during the activity. It was seen how when one was in power, there was a mix of feelings where they believed they could get the other to do anything. Some had fun guiding their partners however they wanted, others were concerned for their follower's safety. In the second round, when the follower became the one who had the power to guide, again the experiences were mixed. While some wanted to give their partners a taste of their own medicine, the others were more empathetic to the plight of the followers. The third round was the most complicated one to execute and participants through more practice intuitively figured out the balance between dominating and following. Mr. Pravin then went on to elaborate more on the concept of power; the different ways that one can get more power in this society, like education, money, caste, color, language etc. We also discussed the different types of exerting this power, whether it is with a weapon like a stick or a gun, or through monitoring via cameras.

This discussion was followed by our next activity: Power Walk. Participants were made to stand in a straight line facing forwards. They were each given a role. Situations were put forth such as "Can you get a loan worth 10 lakhs?" or "Can you go outside to meet your friends whenever you want?". If the participant's roles could do these things, then

they would take a step forward, If not, then they would take a step backwards. If they were unsure, they would stay in their places. All participants started at the same starting point, but by the end when all questions were asked, everyone's positions had drastically changed. Some were way ahead, some were very far back, and some remained in the middle. When the activity was broken down, it was seen that roles that were given were complex and ranged from "19 year old dalit women who cannot see" to "A 45 year old man with 10 acres of land belonging to an upper caste". Each role given had certain aspects in their description that gave them power such as being educated, belonging to the upper caste or being a man. Each of the roles also had something that reduced their power such as being a dalit, being a women or having a disability. Mr. Pravin further explained how each individual belongs to a multitude of groups (or sections) in society and each of these sections interplay with each other and guide how far we go in life. Through the power walk the participants literally wore the shoes of another person and faced a myriad of situations with all its advantages and discriminations and hence understood the concept of intersectionality.

At 6:30 in the evening, after a short tea break, there was a screening for the movie "Gaon Nahin Kinni Paanch Ka". The story is set in a village setting, where due to government policies, a female needs to hold the position of Sarpanch. Unfortunately the elected sarpanch only holds nominal power here and the real power is held by her elder brother. The elder brother and four other members of the panchayat misuse their powers to benefit themselves at the cost of the village's welfare. When the village faces the consequences of the poor management by the panchayat Kaanta bai, a female dalit representative in the panchayat encourages Sharda, to take her true power as sarpanch in deed and not in name only. Inspired by this, the sarpanch starts working for the prosperity of her village and overcomes various obstacles. The screening was followed by discussion where participants reflected on the movie by bringing back the learnings learned earlier in the day on patriarchy and intersectionality.

The day ended with an assignment on poster making. Four groups would showcase ads on two topics, i) An advertisement for marriage, ii) An advertisement of a product (options were: detergent, car, property and deodorant)

The following day- post breakfast- began with a song and a recap of previous days' learnings. The first session of the day was "Gender in Text". The posters made the previous evening were displayed and groups turn by turn explained their thought process for everyone. The session's in-charge, Ms. Steffi gave her feedback for them. After that, participants were divided into new groups and were given texts which had to be analyzed with the lens of gender, patriarchy and intersectionality. Groups came forward turn by turn where they summarized the story and highlighted the issues within the text. The session concluded with Ms. Steffi emphasizing on the power of language- where language is one of the many tools that we use to discriminate between social groups; and that we must be sensitive to the words we use in our daily life.

The last session was taken by Mrs. Nishchint who conducted a quiz on "Women in all walks of life". The quiz covered women in politics, social work, literature, movies etc.

The three day training concluded with a feedback form and distribution of certificates. In those three days every participant had an eye opening experience in a comprehensive list of topics. It changed the perspective and created awareness about many things. Everyone left the training feeling more conscious and critically aware of their own society. It will hopefully impact the way one interacts with members of all social groups, the generalizations one makes about others and help one be a more mindful teacher in the future.

Gandhi Jayanti celebration- 02/10/2022

## **GANDHI JAYANTI**

Every year on October 2, Gandhi Jayanti is observed to honour the great leader Mahatma Gandhi, without whom India might not now be free from British rule. Millions of people were brought together by his nonviolent methods to adhere to the 'Ahimsa' path and protest against the evil oppression. India has declared October 2 to be a national holiday, but people all across the world participate in Gandhi Jayanti speeches, plays, community services and write Gandhi Jayanti essays to mark the day.

Gandhi Shikshan Bhavan celebrated a cultural program on the occasion of Gandhi Jayanti on 2nd of October.

On 2<sup>nd</sup> of October 2022 Dr. Rajan Walukar Sir was invited to celebrate Gandhi Jayanti. Dr. Rajan Walukar, is an eminent academician, former vice-chancellor of the University of Mumbai, Yashwantrao Chavan Maharashtra Open University and G H Rasoni University. He compiled and edited, Gandhi@150 which explores the relevance of Mahatma Gandhi's ideas in today's world and the impact of his philosophy across a wide spectrum of areas such as religion, economics, science, education, the arts and health and development. He inspired and motivated us and all given lots of information of Mahatma Gandhi ji. He also given the information about his book Gandhi@150. Nowadays it is very important to uplift the values and ideas of Gandhi among all the students as well as teachers.

## Report on Workshop on Website Development using Google Sites conducted by upEducators

14<sup>th</sup> October 2022

Friday

On the 14th of October, F.Y.B.ed of Gandhi Shikshan Bhavan had an online digital training program by Google conducted by Mr. Ankush Bhandari Sir. He taught us aspiring teachers how to create our own website using Google sites.

He explained step by step how to create a website, give it a name. He explained the various features available on platform such as inserting pictures and videos, changing themes and editing fonts.

He also showed how to make things more systematic by creating different pages on our website and using more advance features such 'image carousel' and 'button'.

Mr. Ankush Bhandari went over all the features available on the left hand side of the platform. While he was explaining it, students were simultaneously practicing these features on their own laptops.

He taught us how to preview our work- to see how the website would look like to a viewer. Not only on the laptop but also on our phones and tablets. After students were satisfied with their creations, they published their work- after understanding the settings for publishing.

Mr. Ankush Bhandari then spoke about the importance of digital literacy in today's world for teachers. He also elaborated the opportunities available to us through Google, especially as the demand for online teachers are increasing.

The session concluded with a short quiz to check participant's understanding of the training, in which Antara Parasar Student of B.Ed. scored 100% marks and got the scholarship for 100% free Google Educator Certificate Course, post which certificates will be given to the participants.

Overall, it was an easy and informative session. It is surely a skill that will be very useful to digitally organize or showcase our work as future teachers.

Expert talk by Dr.Nishikant Kogle – 16/11/2022

---

**Report: Expert Talk by Gandhian Scholar Dr Nishikant Kolge**

Date: November 16, 2022  
Venue: College Campus  
Speaker: Dr. Nishikant Kolge

**Introduction:**

On November 16, 2022, an expert talk session on the topic "Gandhi and his strategy to abolish the caste system in India" was organized at our college campus. The renowned scholar, Dr. Nishikant Kolge, delivered an enlightening and thought-provoking speech, shedding light on Mahatma Gandhi's approach to tackling the deeply rooted caste system in India. Dr. Kolge, a distinguished professor and researcher in social sciences, has extensive knowledge and expertise in the field of social movements and caste dynamics.

**Talk Highlights:**

Dr. Kolge began his talk by providing a comprehensive overview of the caste system, its origins, and its pervasive influence in Indian society. He emphasized that the caste system, with its hierarchical structure and discrimination based on birth, continues to pose significant challenges to social justice and equality in India.

Another aspect highlighted by Dr. Kolge was Gandhi's vision of swaraj (self-rule) and self-sufficiency.

Gandhi believed that true independence and the abolition of the caste system were interlinked. He advocated for economic self-reliance and the upliftment of marginalized sections of society through self-sustaining village economies. By encouraging self-sufficiency and local empowerment, Gandhi aimed to challenge the social hierarchies perpetuated by the caste system.

Dr. Kolge emphasized Gandhi's emphasis on the constructive program, which involved building alternative institutions and promoting education as a means to challenge the caste system. Gandhi believed that education had the power to break the cycle of discrimination and empower individuals from marginalized communities. He promoted education that fostered inclusivity, social harmony, and a sense of dignity among all individuals.

**Conclusion:**

Dr. Nishikant Kolge's expert talk on Gandhi's strategy to abolish the caste system in India was a thought-provoking and insightful session. The talk shed light on Gandhi's vision of a caste-free society

and his approach to challenging the deeply entrenched social hierarchy. Through nonviolence, self-sufficiency, education, and a focus on dignity and equality, Gandhi aimed to dismantle the caste system and create a more just and inclusive India. The talk left the audience inspired to reflect on the continuing relevance of Gandhi's ideas and

Visit to Yashwantrao Chavan Center – 26/11/2022

#### **Report: Yashwantrao Chavan Centre**

On November 26, 2022, our college organized a visit to the Yashwantrao Chavan Centre, located at Gen. Jagannathrao Bhosale Marg, Nariman Point, Mumbai. The purpose of the visit was to witness an open platform on poetry recitation by school and college students and attend an interview session featuring Bollywood actor Ali Fazal, conducted by Neeraj Apte.

Yashwantrao Chavan Centre is a renowned cultural hub in Mumbai known for hosting various events related to art, culture, and literature. The center provides a platform for aspiring artists, writers, poets, and performers to showcase their talents and engage with a wider audience. The center is located in the heart of Mumbai at Nariman Point, making it easily accessible to visitors.

#### **Poetry Recitation by School and College Students:**

Upon arriving at the Yashwantrao Chavan Centre, we were greeted by the vibrant atmosphere filled with anticipation and excitement. The open platform on poetry recitation featured students from various schools and colleges, who had the opportunity to present their original works and favorite poems to the audience. The event aimed to encourage and promote young talent in the field of poetry and literature.

The participants exhibited an impressive range of emotions, themes, and poetic styles. It was a pleasure to witness the depth and creativity displayed by the young poets. The recitations covered a wide array of topics, including social issues, personal experiences, nature, love, and more. The audience was captivated by the heartfelt performances, and the event provided an enriching experience for all those present.

#### **Interview of Ali Fazal by Neeraj Apte:**

Following the poetry recitation session, we had the privilege of attending an interview featuring Bollywood actor Ali Fazal, conducted by Neeraj Apte. Ali Fazal is a renowned actor known for his versatile performances in both Bollywood and international films.

The interview provided insights into Ali Fazal's journey as an actor, his experiences in the film industry, and his perspectives on various aspects of acting and cinema. Neeraj Apte skillfully guided the conversation, allowing the audience to gain a deeper understanding of Ali Fazal's craft and his thoughts on the evolving landscape of the entertainment industry.

Ali Fazal's articulate responses, coupled with his charming personality, engaged the audience throughout the interview. He shared anecdotes, talked about his inspirations, and discussed his upcoming projects, providing valuable insights into the world of Bollywood and acting as a career.

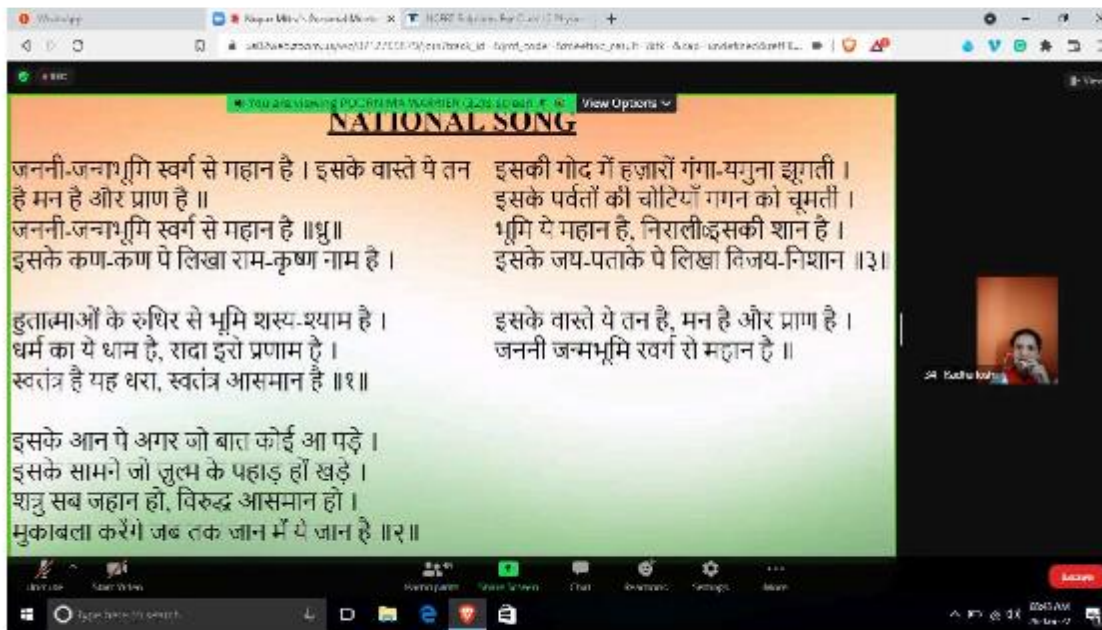

#### **Conclusion:**

The college visit to Yashwantrao Chavan Centre was a memorable and enriching experience for all participants. The poetry recitation by school and college students showcased the immense talent and creativity present among the youth. It was inspiring to witness the passion and dedication of these young poets.

The interview session with Ali Fazal provided valuable insights into the world of acting and the film industry. The interaction between Ali Fazal and Neeraj Apte was insightful and engaging, leaving a lasting impact on the audience.

Overall, the visit to Yashwantrao Chavan Centre was a wonderful opportunity for students to witness and appreciate different forms of artistic expression. It encouraged creative thinking, provided exposure to the cultural scene of Mumbai, and offered a platform for interaction with accomplished artists. The visit served as a source of inspiration and motivation for aspiring artists and performers in our college.

## REPUBLIC DAY CELEBRATION

26<sup>th</sup> January, 2022

Wednesday

The day began with patriotic energy, beginning with the celebration 73<sup>rd</sup> Republic day. The Programme was organized online by Gandhi Shikshan Bhavan's Smt. Surajba College of Education on 26<sup>th</sup> January, 2022 at 8:30 am IST, via Zoom meet.

On 26<sup>th</sup> January 2022, the Republic day celebration began with great zeal and zest. The event was well attended by all the enthusiastic students and faculty members in traditional attire. The programme was introduced by Sabiha Ma'am. The celebration started with the unfurling of flag online due to pandemic and Rashtra geet was sung by Poornima Warrior. Then Vande Mataram geet was sung by Mahek Khan. Then with immense vigour, national pledge was read by Darshana Singh. The preamble pledge was narrated by Swapnil Fadale. Followed by these there were two national songs Janni -janam bhumi swarg se mahan h and chodo kal ki batein was sung by Radha Joshi and Bhageyshri Badigi.

Followed by that Sabiha mam thanked all and introduced the chief guest that he is Special person not a chief guest he is from national army and he has won gymnastic

award and his sister is gymnast too. His aim is to get medal for 2024 for our country. He spend three hours at gym every day.

The chief guest Mr. Anas Ali Shaikh began his speech by wishing everyone Republic day. He mentioned that he is serving national army since 1 and ½ years. His focus is on sports. He had topped in 10<sup>th</sup> std because of his teachers. He started his training since he was 11 year old in gymnastic to channelize his potential. His Father has also played football for Qatar. He mentioned army is such a place where he got opportunity to play. He likes the atmosphere as it is surrounded by brotherhood and hardworking people. He wants to excel in life and make country proud. He also spoke about his routine too where he invest 8 hours per day in training.

Moving ahead with the programme, several questions were asked by our students to which Mr. Anas Ali Shaikh replied. First question was raised by Poornima Warrior which was does he find some days are hard or tuff for him. He gave a quick reply sometimes its smart work that counts. Mahesh Munde asked if NSS people can join army to which he replied Yes and holding a B.Ed. degree one can act as college NSS incharge too. And last question was raised by Pradnaya Ma'am whether he reads books to which he replied he doesn't get time to read.

The vote of thanks was proposed by Vaisahli Dhaware and final comments were given by Dr. Judy Grace Andrews in which she thanked all participants and chief guest for his motivating speech after which everyone rose for National Anthem marking the end of republic day celebration

Film Screening and reviewing session – 27/01/2022

# Gandhi punyatithi- 31/01/2022

**31<sup>st</sup> January, 2022**

**Monday**

Gandhi Punyatithi programme was organized online by Gandhi Shikshan Bhavan's Smt. Surajba College of Education on 31st January, 2022 at 11:00 am IST, via Zoom meet. The event was attended by all the enthusiastic students and faculty members. The programme started with sarva dharma prayer, which created a joyous and peaceful atmosphere.

At the start of the programme, Asha Damle ma'am gave an introduction of the institute. She mentioned about the G.S.B School and College also about the Gandhian Philosophy followed in the institution. She also mentioned learning by doing. Our Principal ma'am Dr. Judy Grace Andrew also said some words about the institution. Sabiha ma'am introduced the guest of the seminar Sir Mahavir Acharya who is following the philosophy of Gandhiji. And also talked about Hunrashala foundation.

Sir has given a life lesson for all of us. He shared his village experience of remote regions. He has done great work in his entire life which was felt from his shared experience. He relates his work with the philosophy of Gandhiji. He shared one of his experiences of 2001 where his group faced a financial crisis for the construction process. But they were not afraid and made Ashram

in 5km places with soil and with help of village peoples. We all observed the work done by them with ppt. His team used waste material like wood which will protect them from snow and cold.

He visited different states like Uttarakhand, Nepal. In Nepal His team had constructed 2000km above heights village settlements. Where all 150 nuns also gave their contribution to bring the soil from the down to hilly part. Village people were using their own creativity for the construction work. It means that village people also have their creativity but they are not getting a chance to explore it.

Sir also encouraged the students to come and visit his NGO. From attending this seminar, we all learnt that we should conserve our environment by using whatever was available in nature. After that there was a question - answer session with the students. The discussion was fruitful and inspired us to conserve our nature and we can protect ourselves with what we have. At the end of the programme, our teacher Dr. Sunayana Kadle gave a vote of thank, she thanked all the coordinators and all the students. The programme ended with the national anthem.

Koham yoga workshop- 23/02/2022

## **Yoga Day**

**23rd February 2022**

**Wednesday**

The fourth semester had begun with full swing and enthusiasm. World Yoga Day was organised offline by Gandhi Shikshan Bhavan's Smt. Surajba College of Education on 23rd February 2022 at 1:00 pm in offline mode.

On 23rd February, 2022 the program began with great zeal and zest. The program was well attended by all the enthusiastic students and faculty member Dr. Yogita Mandole. One day prior to the Yoga Day announcement was made that we students are supposed to bring a yoga mat and be in comfortable clothes to do yoga. The students were very excited because it was our first offline program organised by our college Gandhi Shikshan Bhavan. The next day's programme started with great enthusiasm and energy. All the students were excited to learn yoga. The programme started at 1.00 pm. Our trained teacher in yoga Dr. Yogita Mandole with 2 trained girls started to guide us on how to start with yoga which created a joyous and peaceful atmosphere. The Yoga poses involved stretching the muscles, breathing exercises, pranayama, surya namaskar, vajrasana etc. She had beautifully talked about the significance of yoga day. The word 'Yoga' is derived from the Sanskrit root 'Yuj', meaning 'to join' or 'to yoke' or 'to unite'. As per Yogic scriptures the practice of Yoga leads to the union of individual consciousness with that of the Universal Consciousness, indicating a perfect harmony between the mind and body, Man & Nature. Yoga is an ancient form of exercise which is said to have originated in India thousand years ago. It involves breathing techniques, meditation along with exercises which are very beneficial for health.

She had talked about the role of a teacher in spreading awareness about the importance of Yoga Day. Dr Yogita Mandole told us the importance of Yoga which

includes weight loss, improves immunity, relieves stress and anxiety and increases flexibility and muscle strength.

The aim of celebrating Yoga Day was to help today's generation to understand the importance of doing yoga every day. Significant Role of Yoga and Meditation in Student Life is

Improved concentration– It leads to better grades, balanced blood pressure, decreased absenteeism and tardiness, improved interpersonal relations, and enhanced confidence level, sleep, relief from a headache, improved calmness and a sharper mind.

Visit to Nehru Science Centre- 25/02/2022

## Visit to Nehru Science Centre

25th February 2022

Friday

Good Morning one and all. Today is 28th February which is celebrated as National Science Day each year. Science Day is celebrated to honour the contribution of Physicist and Nobel Prize Winner Sir C. V. Raman. On this day in 1928, C.V. Raman discovered a phenomenon of scattering of photons which was later known as 'Raman Effect' after his name. After two years in 1930, he got the Nobel Prize for this remarkable discovery and this was the first Nobel Prize for India in the field of Science. To mark the discovery of his famous phenomenon, National Science Day is celebrated in India on 28th February each year. The theme of National Science day 2022 is 'Integrated Approach in Science and Technology for Sustainable Future'.

Nehru Science centre is the largest interactive science centre in India. In 1985, this centre was opened for the common public and it consists of more that 500 hands-on and interactive science exhibits on different concepts in Science and Mathematics.

Gandhi Shikshan Bhavan's Smt. Surajba College of Education had organised a visit to Nehru Science Centre which is at Worli on 25th February 2022; during the Science Week that is celebrated from 21st to 28th February. This was the first educational visit after the college opened in offline mode, after the Covid pandemic. 20 students from F.Y.B.Ed and 40 students from S.Y.B.Ed had joined for the visit. All the students and the professors met near the entrance of the Science Centre around 10:15 am.

First we went to watch the Odyssey show where we saw the documentary on dolphins in 3D mode. It had a detailed explanation on physical characteristics of dolphins, different species of dolphins etc. It explained how dolphins are one of the most intelligent mammals, their medium of communication through whistling and different types of sounds, their symbolic language, their expression of emotions like sorrow and happiness. It explained the interesting fact of how dolphins record sounds like computers and differentiate between the sounds.

After that we went to the section of Science on Sphere. There we saw each planet in our Solar system along with Moons of some planets on a spherical ball-like suspended object where projections were used on all four sides so the sphere appeared to be moving although it was stationary. Special characteristics like the surface, atmospheric conditions, temperature of each of the eight planets was explained.

Next we took a lunch break of about 35 to 40 mins and all met again excited to learn and see new things after this short break. We next went for a motion simulator ride. We all thoroughly enjoyed the ride in the simulated vehicle. It was a thrilling experience for all. The movie 'Great Wall of China' projected in 3d mode made this ride even more like an adventure.

After that we went to different galleries. The first one is the Hall of evolution. There we saw the history of humankind. There were different sections such as Wheel, a great invention, Braille system, Sensory organ, Plasma sphere invented by Nikola Tesla is a glass globe with lightning bolts streaming from a central electrode towards the outer surface.

In the maths related gallery, Word Numerals and Decimal Place value system where in early centuries of the Christian era a system of expressing numbers by words was evolved. It also includes Area of a Circle, Circle and its Diameter, Big numbers, Pythagoras or Sulba Sutra, Square root and cube root, The technology of India etc.

We also saw Sushruta the plastic surgeon, how in the earlier times plastic surgery was operate. There were replicas of different surgical instruments used in the plastic surgery. There was another section explaining the process of preparing Bhasma.

At the end we saw some experiments on liquid nitrogen which one of the in-charge at the Nehru Science Centre performed. We were mesmerised to see what happens when a balloon is put in liquid nitrogen, the effect of filling a cooker with liquid nitrogen and so on. And last but not the least, some of us saw an extra show at the end, called Kids Show which depicted aquatic life since ancient times and the evolution of different aquatic species.

Many of us had visited Nehru Science Centre before as students but this time visiting it as a future teacher was a different experience. We saw each section from a different perspective, to learn something new and to add it into our lessons to make them interesting. Also, we could see the relation between Science and the other subjects. Later on most of us left the Nehru Science centre full of knowledge and learning and with a small thought at the back of our mind about whatever we had learnt.

Today, life has become easier as compared to what it was earlier and we can say that all this is due to scientific and technological advancement. Improvement in the Medical field, Communication, Bio-technology, Agriculture, Industry, Manufacturing etc has improved the quality of our life. So, our responsibility as a citizen and as a teacher is to understand the role technology has played in our life as well as understanding the need for sustainable development.

And finally, we would like to thank our Principal and our professors for giving us this opportunity to visit Nehru Science Centre.

Matrubhasha divas- 28/02/2022

-

## **Matrabhasha divas**

-

28<sup>th</sup> February, 2022

Monday

International Mother Language Day is being celebrated as Matrabhasha Diwas on February 28<sup>th</sup>. There was a programme organized by Gandhi Shikshan Bhavan's Smt. Surajba College to promote and preserve our matrabhasha. It was a wonderful opportunity for everyone to express their feelings, love and gratitude towards their mother tongue. Students sang songs in their mother tongue such as Bengali, Hindi, Urdu, Konkani, Malayalam, Awadi, Kannada, Gujarati language. It was a thrilling experience to hear so many different languages under one roof.

On 28<sup>th</sup> February 2022, the celebration began with encouraging words for our principal ma'am Dr. (Smt.) Judy Grace Andrews. The event was well attended by all the enthusiastic students and faculty members in their traditional attire. The programme was hosted by the S.Y.B. Ed student Miss Poornima. The celebration started with a graceful dance performance on an awadi song by Deepa and Nidhi which created a joyous and energetic atmosphere. Then we went for the skit which

was performed in Hindi, A comedy rhyme in Kannada language was recited Bhagyashri, then a group of S.Y.B. Ed students beautifully expressed how we should care for our oldies in our house. Afterwards there were songs melodiously sung by Poornima and Naheda in Malayalam and Tamil. The performances were so amazing as each song or skit had a hidden message for the audience. Darshana Makwana and Heli Saiya then narrated a story in Gujarati language. As Marathi language brings energy in everyone as it's a symbol of courage, our powada group members came to present a powada on Savitribai Phule. It was a power pact performance.

Developing a respect for language which is not spoken much now and reminding its history is a very important thing. Urdu is one of the most beautiful tehzibi languages. Urdu shares its origins with Hindi, sometimes referred to as a 'sister' language of Urdu, with the mixture of Sanskrit, Persian and Arabic influences. Then we heard a beautiful hamd by Needa which is an astonishing word to praise the lord. That really helped us to connect to the almighty at that moment. And there was a skit performance done by my Urdu group. There was also a kokani story narrated by Ria and Felsy. Which amazingly described the carnival festival of Goa, really a language can also be understood by gesture.

Moving ahead with the programme, Our Principal, Dr Judy Grace Andrews thanked the teacher coordinators and appreciated the efforts of the students through her motivating speech. The vote of thanks was proposed by Heli Saiya, after which everyone rose for the National Anthem marking the end of the matrubhasha divas.

THANK YOU!

Women's Day celebration in practice teaching schools - 08/03/2022

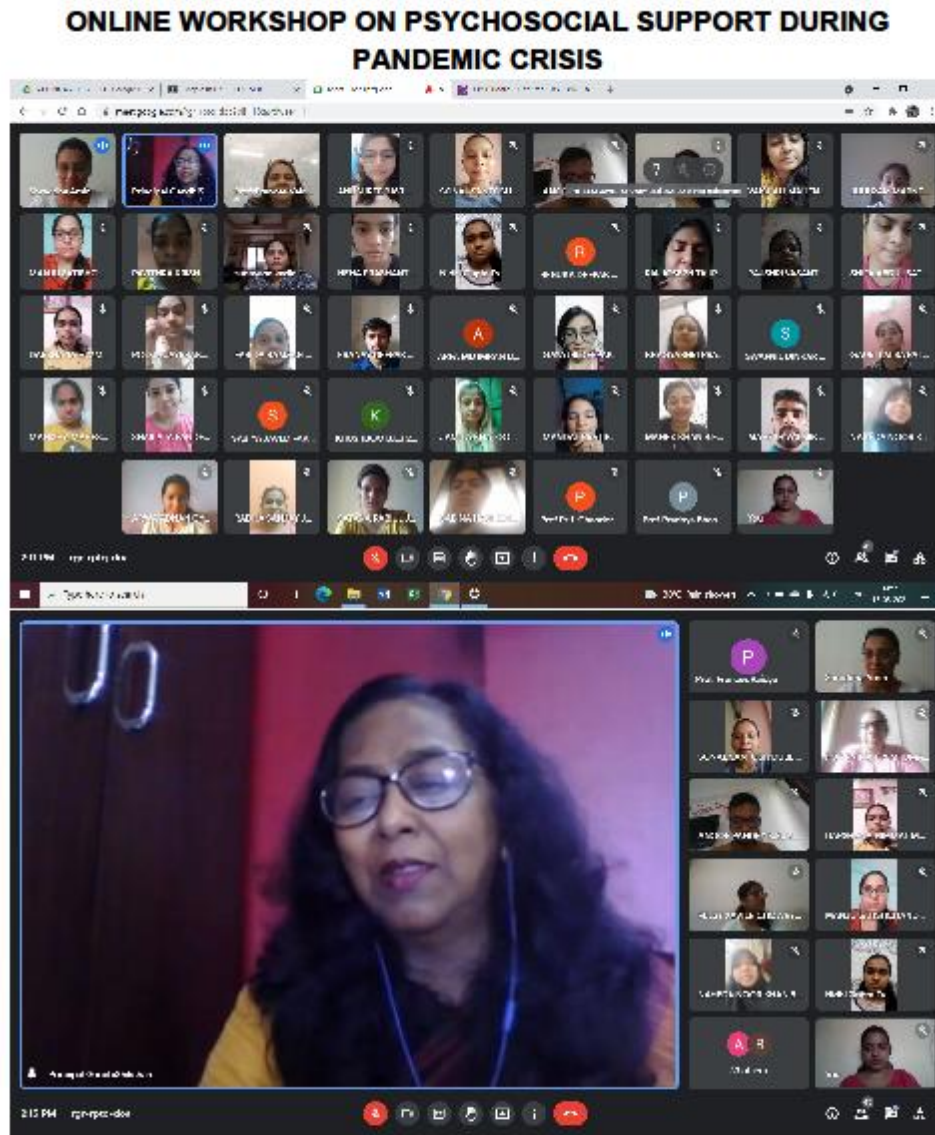

# YEAR 2021

Workshop on Psychosocial support during pandemic- 15/06/2021

15th June 2021

Tuesday

The new academic session commenced with an inspirational and interactive workshop on providing "Psychosocial Support During Pandemic Crisis". It was organised by Gandhi Shikshan Bhavan's Smt. Surajba College of Education in collaboration with Mahatma Gandhi National Council of Rural Education, on 16th June 2021 at 02.00 pm IST, via Google Meet. The workshop was organised to orient the students about the different ways to contribute towards society, particularly in the context of the current pandemic. The resource person for the workshop was an eminent member from Mahatma Gandhi National Council of Rural Education, Ministry of Education, Govt. of India - Mrs. Jayashree Jani. The programme coordinator for the webinar were Dr. Frances Vaidya, Asst. Prof. G.S.B's Smt. Surajba College of Education .

The workshop commenced with great energy and enthusiasm. The event was hosted by Dr. Frances Vaidya, who began with a brief introduction about the workshop and positive encouragement. Followed by a brief welcome address by our I/C Principal Dr. Judy Grace Andrews highlighting the need of "social vaccine" in the current situation. The resource person Mrs. Jayashree Jani was formally welcomed by Dr. Frances Vaidya, reflecting on the inspirational achievements to her credential. The speaker's extensive contribution for the relief of Covid

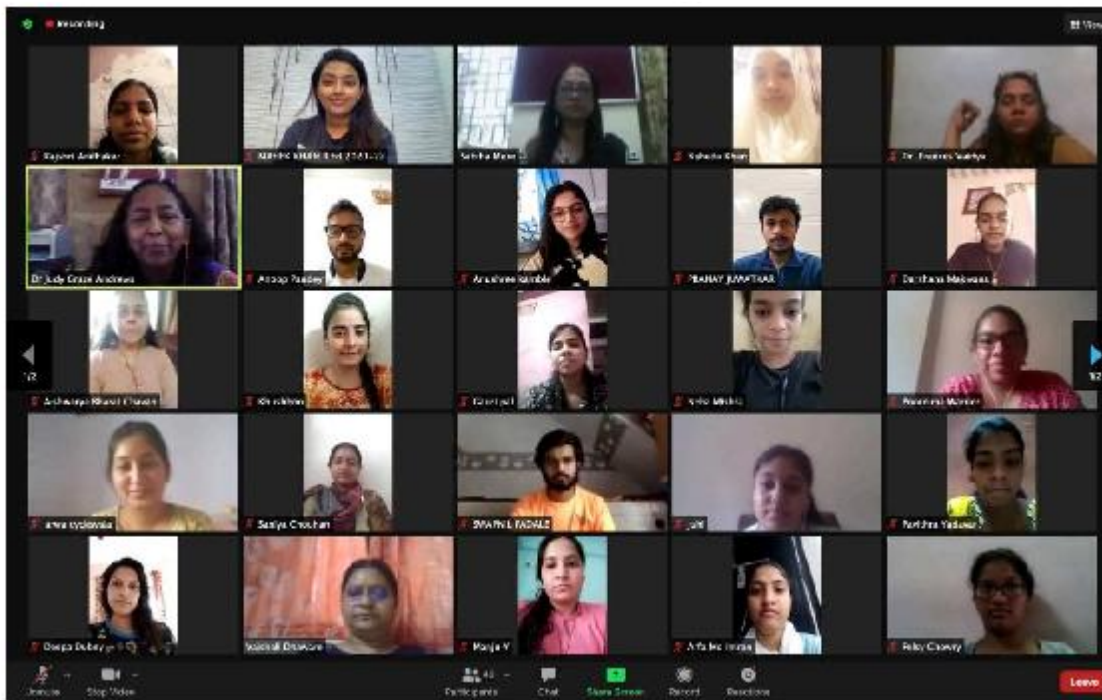

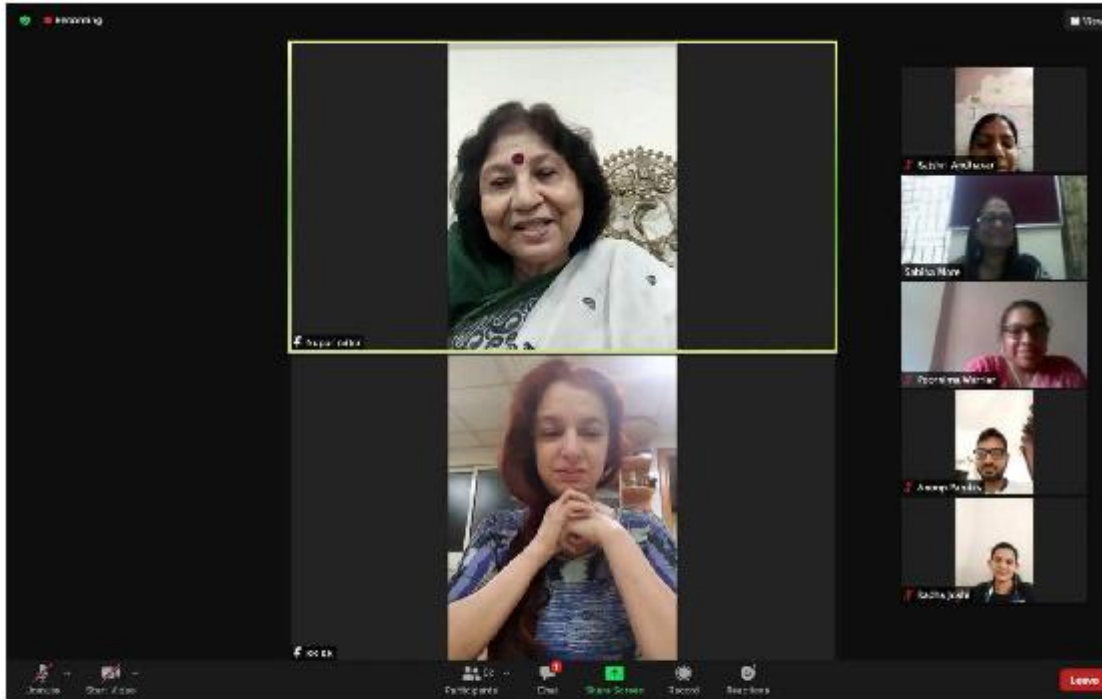

affected patients and their family members laid the foundation for the workshop.

The speaker commenced the workshop by highlighting the significance of understanding the meaning of the word, "Corona" and the associated emotions. By facilitating interaction and through a video, focus was laid on the importance of comprehending the word in a positive light. The core quality of listening and developing empathy was enlightened to all the future teachers. Through presentation, case study and role plays, the speaker helped in gaining an understanding of the nature of work and execution of the voluntary work under the following teams:- Team 1:- Hospital Management, Team 2:- Non- hospital Management, Team 3:- Family Related Team, Team 4:- Sharing the information of Medical essential, Team 5:- Communicating with the Covid patients.

Students were given the opportunity to voluntarily choose their desired teams, and contribute to the society in such effective ways with guidance and encouragement gained through the workshop, serving as the ultimate need of the hour. It was concluded through predominantly providing a source for productive participation, it helped in lighting the flame of kindness and empathy as highlighted in the experience of some of the participants. Mahek Khan found the workshop as an eye-opener which she claimed helped her realize the meaning of empathy. Along with interesting examples, it facilitated in realizing the need of humanity in current times, for Anushree Kamble. Sayana Shaikh exclaimed on the inspiration she gained in contributing at her own personal level. Thus the workshop laid the foundation for the rising of dawn through joining the hands in the time of current crisis, and providing an upliftment both at an individual level as well as at the institutional level for the college.

The formal vote of thanks was delivered by Dr. Frances Vaidya, who enriched and highlighted the spirit of the enthusiasm created by the speaker in the fulfilling and informative session, marking the end of the workshop.

Bonding celebration- 18/06/2021

18<sup>th</sup> June, 2021

Friday

A semester has already passed, since we are now a part of this institution, it is very important to know the management as well as the philosophy of the college. A webinar on bonding was organized online by Gandhi Shikshan Bhavan's Smt. Surajba College of Education on 18<sup>th</sup> June 2021 at 2:00 pm IST, via Zoom meet. The college organized this webinar in order to make students aware of the philosophy, management and especially what the institution expects from students who are going to become the future teachers. The guest speaker for the programme was the president of Indian Council of Basic Education (ICBE), Nupur Mitra.

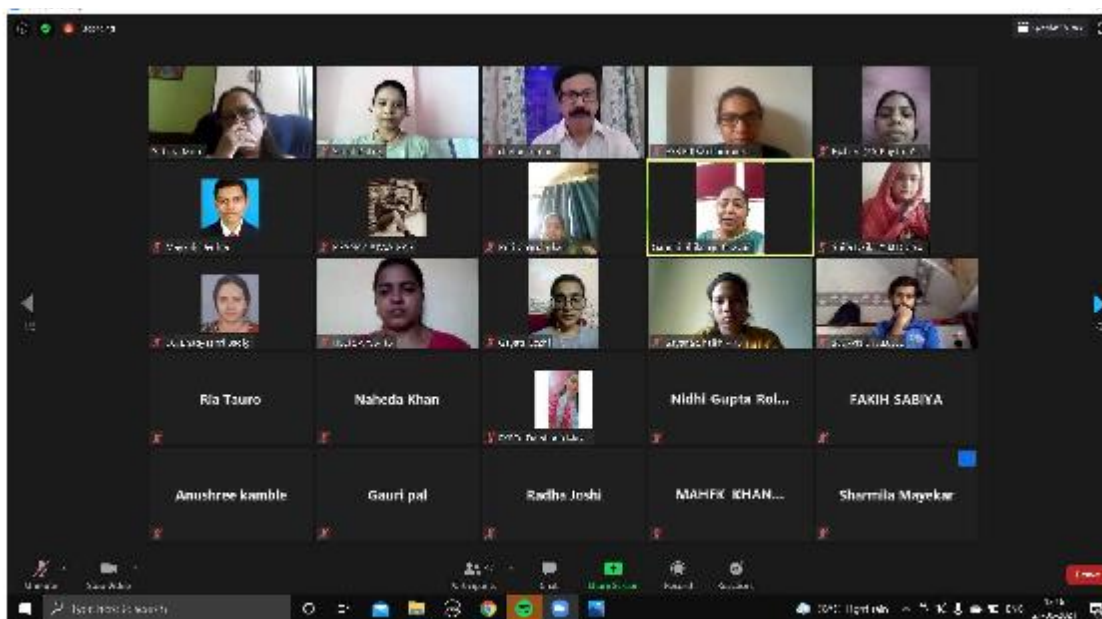

On 18<sup>th</sup> June 2021, the webinar began with great zeal and zest. The event was hosted by Ms. Sabiha More. The webinar started with the introduction of the college by the host. Then followed by a brief welcome address by our I/C Principal Dr. Judy Grace Andrews. The speaker shared her joy and exuberance on being a part of this institution, especially being an alumni of this college. The speaker welcomed the students and shed light on the goals and vision of the college which looks for teachers who will bring change in the society. The institution runs under the trust of Indian Council of Basic Education (ICBE). Established in the year 1969, by Vajubhai Patel the speaker mentioned the challenges and hard work in laying the foundation of the esteemed institution. She concisely told the students how Vajubhai Patel wanted teachers to be, who

play a pivotal role of serving the society. He believed that education should ensure dignity of labour, we should be humble and not demean others for their labour. The speaker also shared various anecdotes of her journey in teaching. She said that “teachers are not factory built products”, a teacher has to be different. With that she also explained some of the important principles which a teacher must imbibe such as punctuality, respecting students, patience, and good presentation as well language, being polite with students and also avoid verbal ahimsa. It is very important how you conduct yourself as a teacher.

Being a teacher talk to them, give them a chance to ask questions, counsel them. Do not hold grudges against the students. Another point she highlighted was that develop the hunger for knowledge, teacher should engage students in different activities and should not limit to the use of textbook. Further she said that teachers should be keen observers and they should have a solid foundation for values. And lastly they should boost the morale of the students and work towards making them good human beings. At the end few students asked questions to her, which she happily answered. The webinar served as utmost importance as we students are now a part of this prestigious institution.

The session came to conclusion with our Principal, Dr Judy Grace Andrews expressed gratitude to the speaker, Nupur Mitra for taking out her valuable time and being a part of this webinar and our teacher co-ordinator, Ms.Sabiha More through her motivating speech.

#### Inauguration of IPR cell – 22/06/2021

**GANDHI SHIKSHAN BHAVAN'S  
SMT. SURAJBA COLLEGE OF EDUCATION**

**REPORT ON INTELLECTUAL PROPERTY CELL INAUGURATION**

DATE: 22 June 2021

DAY: MONDAY

Intellectual Property Right Cell is inaugurated in our college, Gandhi Shikshan Bhavan college for the 1st time. It was conducted on 21st of June 2021 through a Zoom Meeting organized by the college authorities to enlighten on the importance of Intellectual property laws applicable in India and how can original creator use them for their benefit.

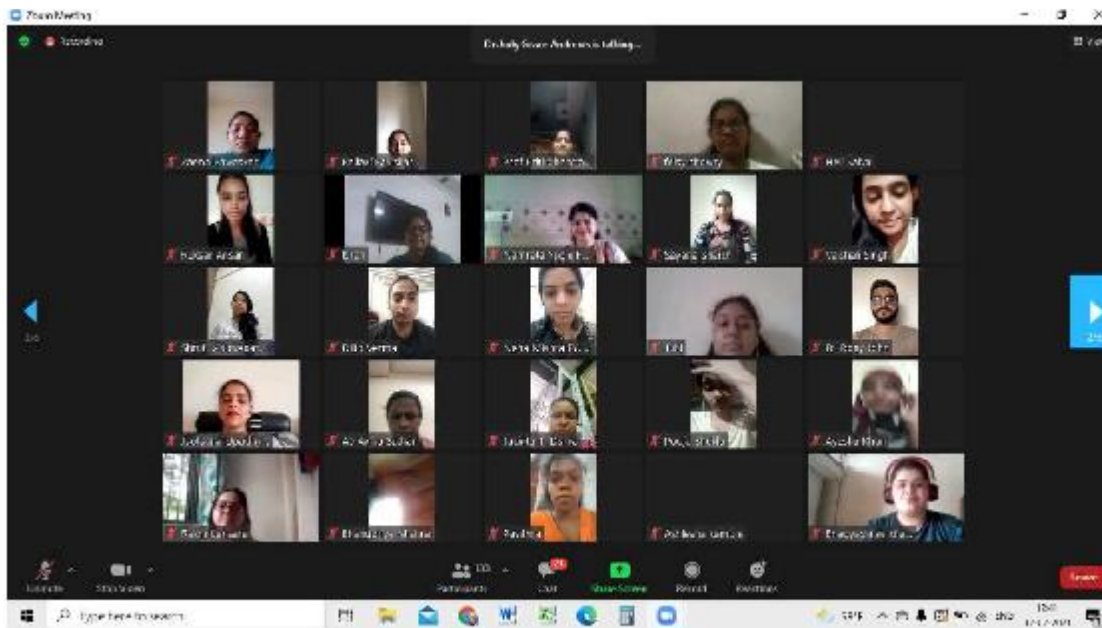

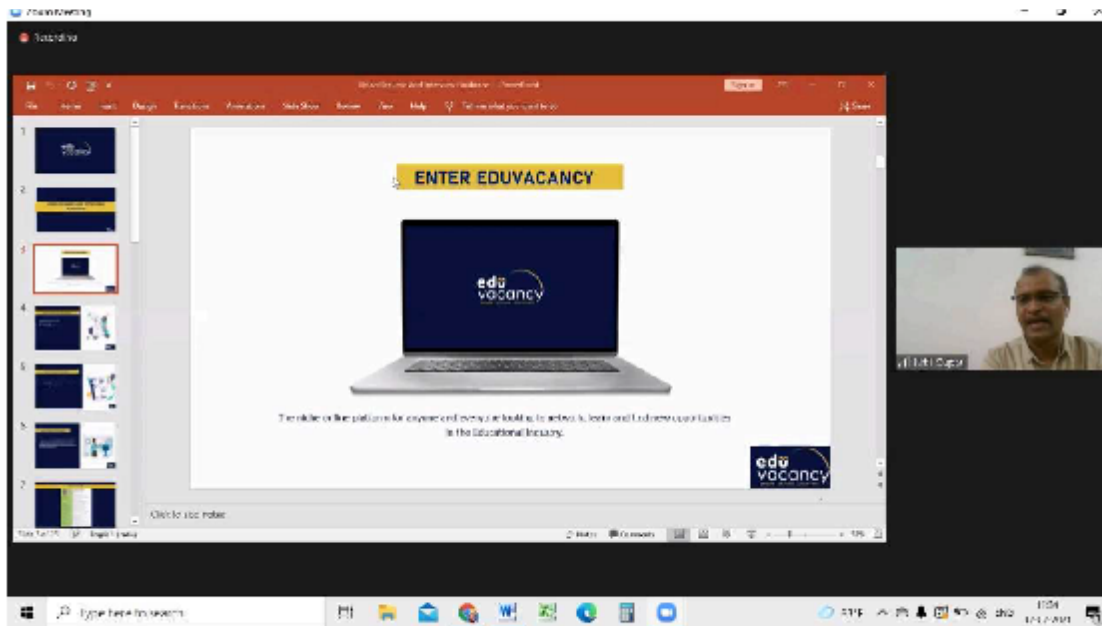

The event was started with a melodious prayer sang by our college student Bhagyashri. Further a welcome speech was given by our respectable principal Judy Andrew's ( ma'am) and detailed knowledge and achievements of the guests was given by our respectable programme coordinator Sabiha More ma'am. The programme coordinators are Professor. Sabiha More Mam and Professor. Priti Chandorkar Mam.

Intellectual property rights are legal rights that provide creators protection for original works, inventions, or the appearance of products, artistic works, scientific developments, and so on. There are four types of intellectual property rights (IP): patents, trademarks, copyrights, and trade secrets.

The further knowledge with regard to intellectual laws was given by guest for our session Mr. Chetan Mathur who is a well known graduate in English literature, and a preview committee member of IFFI , Jury in national film awards and had documented many movies and films.

The guests of the session gave us a great knowledge about copyrights of films, and concepts of unauthorized use of copyrights and how can companies get protection from these infringement activities. Specific government laws are made to prevent the originator of works (artistic, creative and dramatic work)

The session gave us great insights which all of us were unaware and helped us to know about certain legislations framed by our authorities to protect the welfare of business and citizens.

---

## **Report on Video Resume and Interview Guidance**

17<sup>th</sup> July 2021 Saturday

Today we began with an enriching and fruitful webinar on the topic 'Video Resume and Interview Guidance'. It was organized online by Gandhi Shikshan Bhavan's Smt. Surajba College of Education on 17<sup>th</sup> July 2021 at 11.00 am IST, via Zoom meet. The college organized this webinar in order to make aware the future teachers about making Video Resume and Guidance for Interview. The Speaker for the day was the Edtech expert, Mr. Nitil Gupta. The programme coordinator were Dr. Sunayana Kadle and Dr. Frances Vaidya, Asst. Prof. G.S.B's Smt. Surajba College of Education.

On 17<sup>th</sup> July 2021, the webinar started online with great zeal. The event was hosted by Dr. Sunayana Kadle. The webinar began with prayer to seek the blessings of Almighty. The prayer was led by the student council president Poornima Warriar. The prayer was followed by the brief welcome address by our I/C Principal Dr. Judy Grace Andrews. Dr. Sunayana Kadle then welcomed the speaker with her kind and inspiring words. The speaker shared her joy on being part of the webinar. He was humble.

The Speaker was an serial entrepreneur, Public speaker, Career counsellor, Edtech expert and International Admission Consultant. He shared with our participants about Video Resume which is the need of the hour. He also shared various aspects that should be considered before walk in for an interview and while giving interview. He shared sample resume to facilitate better understanding.

"The important aspects of creating a video resume with details with respect to script writing, background, appearance also the impact of listening and not dominating in a telephonic interview, were highlighted by the speaker.

The spirit and discipline while going for an interview, in terms of do's and don't's were explained with examples. Thus the speaker concluded the required preparation for an interview in 3'Cs - Content, Communication and Confidence."

Dr. Sunayana Kadle asked few questions regarding applying for the jobs in foreign countries. This interaction session was followed by many of the participants. They asked their doubts. The speaker Mr. Nitil Gupta honestly answered each and every questions without any hesitation. It was very informative and enlightening interaction. Overall this webinar was the need of the hour.

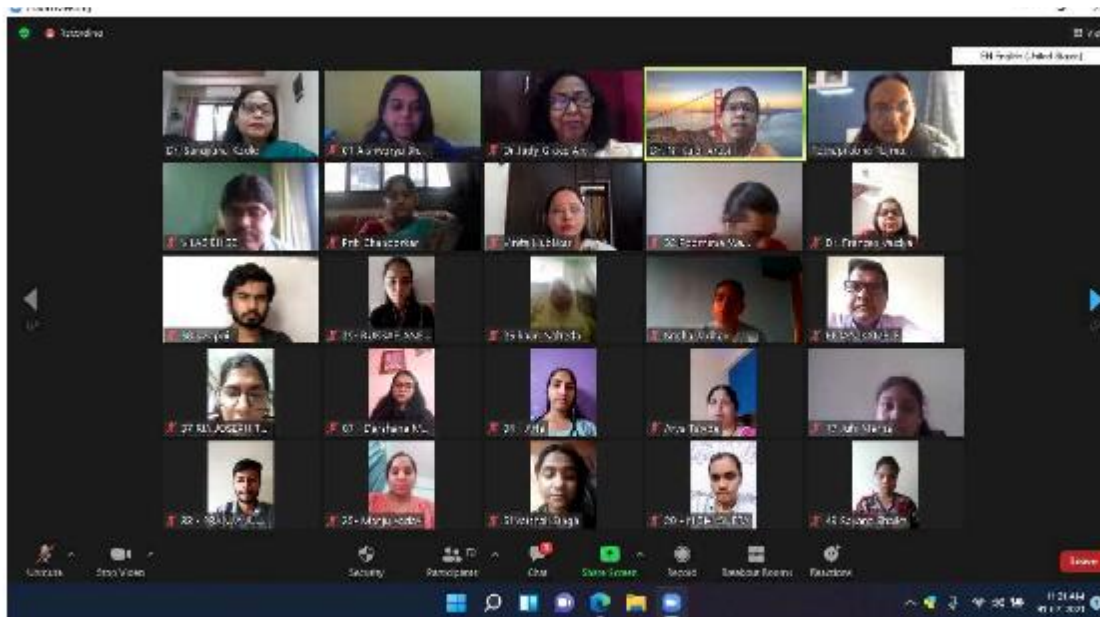

The efforts of the students and teacher coordinators were encouraged by the appreciative and motivating speech given by our Principal Dr. Judy Grace Andrews. The vote of thanks was proposed by Dr. Frances Vaidya, marking the end of the webinar.

Conference on Research and education- 31/07/2021

The image shows a presentation slide titled "HYPOTHESES OF THE STUDY" with four bullet points. On the right side, there is a vertical strip of four video call windows showing participants. At the bottom right, there is a colorful geometric logo.

**HYPOTHESES OF THE STUDY**

- There is no significant difference in the Emotional Intelligence of Secondary School Teachers, on the basis of Gender namely Female and Male Secondary School Teachers.
- There is no significant difference in the Emotional Intelligence of Secondary School Teachers, on the basis of Board namely SSC and CBSE school boards.
- There is no significant difference in the Teacher Effectiveness of Secondary School Teachers, on the basis of Gender namely Female and Male Secondary School Teachers.
- There is no significant difference in the Teacher Effectiveness of Secondary School Teachers, on the basis of Board namely SSC and CBSE school boards.

## **Report on Research in Education**

31st July 2021  
Saturday.

Gandhi Shikshan Bhavan's Smt. Surajba College of Education organized a one-day interdisciplinary national webinar on 31st July 2021 at 10.00 am IST, via Zoom meet. The webinar was organized to give more information about the research in education and the new emerging trends in the field of education. The Guest speaker for the webinar was Dr. N. Kalai Arasi, Associate Professor N. K. T. National College of Education for Women and the programme coordinator for the webinar was Dr. Sunayana Kadle, Asst. Prof. G. S. B's Smt. Surajba College of Education.

The webinar started with great enthusiasm and motivation. The event was hosted by Dr. Sunayana Kadle. The programme was inaugurated by Sarvadharama Prarthana to seek blessings of the almighty. The prayer was led by the B.Ed. students under the guidance of Dr. Pradnya Bhosekar and was followed by the University Song.

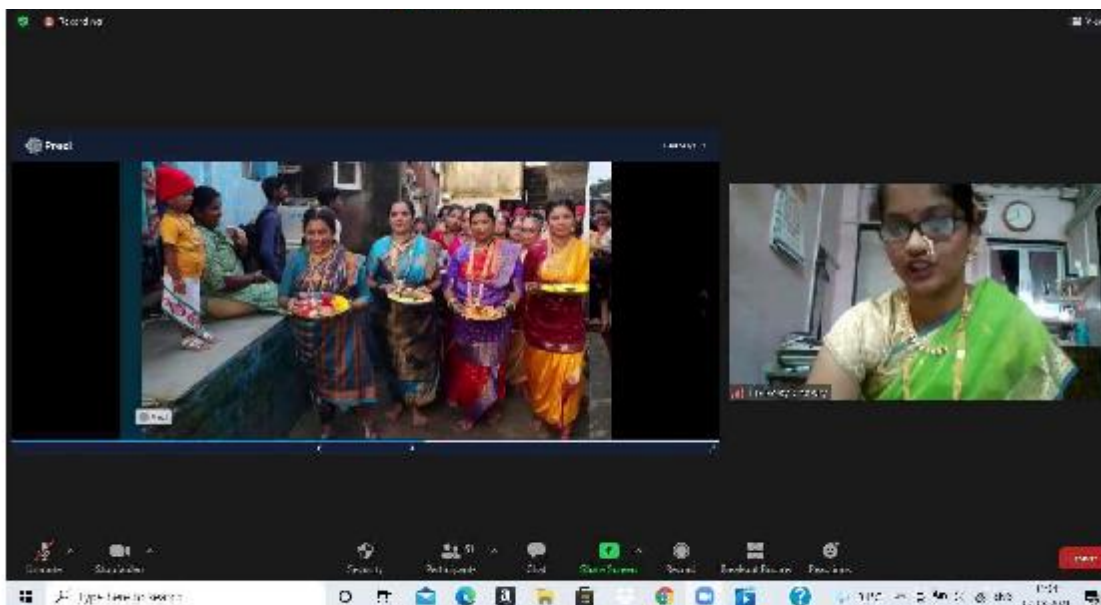

The prayer was followed by the lighting of the lamp digitally as a symbol of brightness and to officially start the webinar. This was followed by a brief welcome address by our I/C Principal Dr. Judy Grace Andrew.

Then the Honorable Speaker Dr. N. Kalai Arasi was introduced by Dr. Frances Vaidya, Asst. Prof. G. S. B. Smt. Surajba College of Education. The speaker enlightened the students with her valuable words. She spoke about the trends in education, mixed research and various other researches carried out around the globe. She quoted some examples for better understanding of the concept and to provide a good learning experience to one and all. Furthermore, the webinar proceeded with the presentation of papers by various research scholars. There were 16 papers to be presented and therefore the meeting was divided into two breakout rooms with 8 participant each. The topics covered in the paper reading covered various aspects in the field of education and skills. The chairperson in group 1 was Dr. Savita

Manchekar and in group 2 was Dr. Ratnaprabha Rajmane who guided all the research scholars and gave their valuable reflections on the papers. Following the paper presentations, Ms. Sabiha More, Asst. Prof. G. S. B. Smt. Surajba College of Education introduced the valedictory speaker Prof. Vibhuti Patel Former Prof. of TISS & SNTD and gave her a grand welcome. Then the programme coordinator Dr. Sunayana Kadle presented and read a brief report of the session.

Following the report reading, Prof. Vibhuti Patel further guided all the students with the minute essential details to be taken care of while preparing and presenting research papers. Prof. Priti Chandorkar then expressed gratitude to Prof. Vibhuti Patel for her valuable feedback and her precious time. The efforts of the students and teacher coordinators were encouraged and appreciated. Dr. Sunayana Kadle concluded the seminar with a vote of thanks and appreciation for the students for their whole hearted participation during the webinar She also thanked the guests for their valuable inputs, the webinar concluded with the National Anthem.

Varsha mangal celebration- 07/08/2021

## **Report on Varsha Mangal program**

07 August, 2021

Saturday

We begin with great enthusiasm and excitement for the VARSHA MANGAL program. The event was organised by Gandhi Shikshan Bhavan's Smt. Surajba College of Education on 07th August, 2021 at 10.15 am via zoom meeting. The program was organised to remember one of the 'Multifaceted geniuses' **Rabindranath Tagore** on his 80th death Anniversary and also our college follow the philosophy of him and celebrate the season as a festival like varsha mangal. The programme coordinators for the webinar were prof. Priti Chandorkar and prof. Yogita Mandole , Asst. Prof. Gandhi Shikshan Bhavan's Surajba College of Education. The program was hosted by our FYBEd students Swapnil Fadale and Gayatri Joshi.

As it is our college tradition to start any event by remembering the Almighty, the students council members sung Sarvadharm prayer and Bhagyashri sung the song rimjhim Ghana Ghana re very beautifully. Then our principal ma'am Dr. Judy Grace Andrew lit

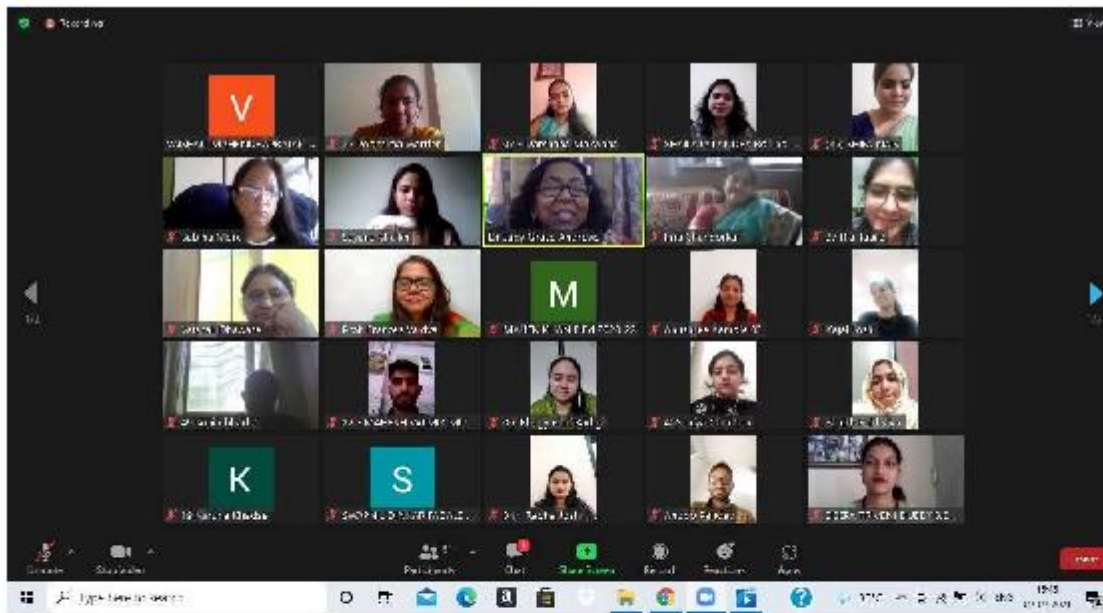

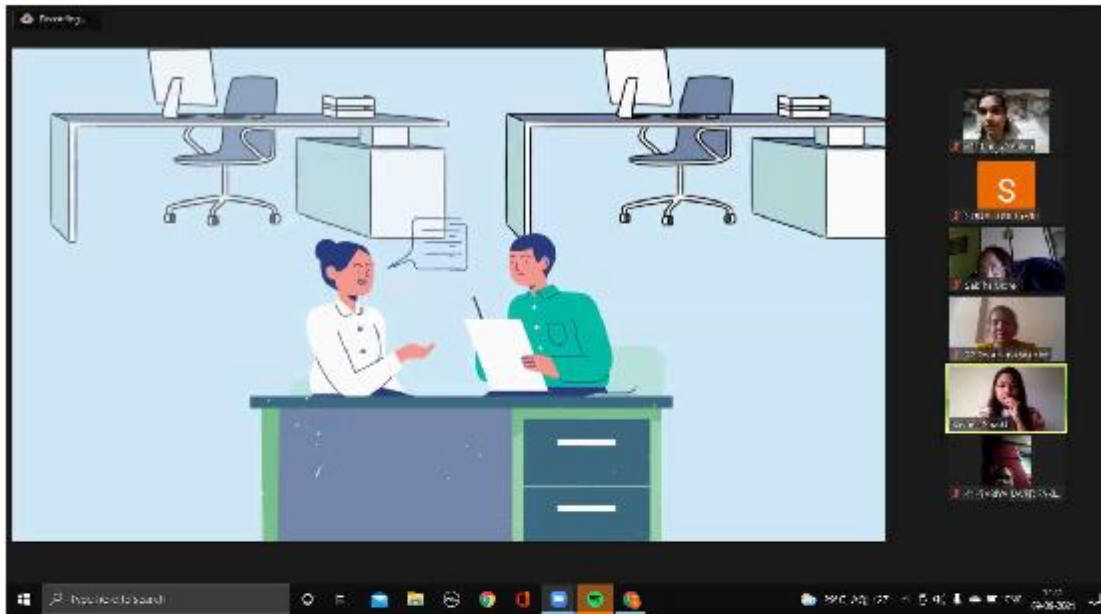

the lamp to give homage to Rabindranath Tagore's soul. After that our council member Aishwarya Chavan read a paper on Rabindranath Tagore's philosophy and his work. It was indeed to listen about his great work and initiatives.

Almost every student took part in this program and performed various poems, songs, skits, and presentations to make this event successful and it succeeded too. The kavya mehfil in which various languages poems were there and songs of Rabindranath sir were literally touching the hearts of the audience. The literature written by Rabindranath sir which was played in the form of skits was greatly appreciated by the audience. Two of our students also dressed up very innovatively and made the program more enthusiastic. There was one dance performance also which was really amazing to watch. The last performance was the song ekla chalo written by Rabindranath Tagore.

Our principal ma'am appreciated everyone's efforts and corrected us wherever we needed to improve ourselves. It was really interesting to watch the performances. At last we all stood for the National Anthem and ended the program.

Teacher's Day celebration- 09/09/2021

## **INFORMAL TEACHER'S DAY CELEBRATION (STUDENTS GRATITUDE DISPLAY SESSION)**

9th Sep.2021 Thursday

Gandhi Shikshan Bhavan Smt. Surajba College of Education conducted an informative Webinar on 9<sup>th</sup> September 2021, Thursday at 10:00 A.M on Zoom. It was based on the New Policy of Education 2020. Before beginning the session we observed a moment of silence, in remembrance of Smt. Sonal Shukla, one of the primary members of ICBE . Then Dr. Francis Vaidya, welcomed all the Member Guests on the panel, and all the professors jointly introduced them to the Staff and Teacher Trainees of the College, who were also the participants in this Webinar. Followed by Prayers, led by BCG School Group students to begin the session and Lighting of a Virtual lamp. The esteemed panel members for the session were – Dr. Sarla Santwani, Dean and Principal, K.J Somaiya College of Education, Prof. S. S. Mantha, Chancellor, K.L. University, Dr. Rakesh Chandra, Head Dept. of Philosophy and Dean, Academics, Dr. Asha Menon, Principal, S.P.N Doshi Women's College. The moderator of the session was Dr. Vibhuti Patel, Eminent Gender Economist and Feminist.

The panel explained about the major problem faced in today's System of Education, especially during online Examinations. Mrs. Asha Menon delivered a speech on Early Childhood Education. She threw light on the importance of the Mother tongue in early Child hood Education and the importance of the Medium of Language to be taught earlier on in a multi-linguistic Education. Mrs. Sarla, explained about the three-language culture in education, referring to the Mother tongue, the State and country and regional Mastery of languages, as well as their pros and cons. This was followed by a relay of questions asked by the students and answered by the Professors which brought the Webinar towards conclusion.

A formal vote of thanks was delivered by Dr. Pradnya Bhosekar to express gratitude for an informative and insightful session. Dr. Judy Grace Andrews, Principal GSB Smt. Surajba College of Education also expressed her gratitude to all the panel members and gave final address to the webinar Thus the webinar, came to an end, as all raise for the National Anthem.

The afternoon session marked informal celebration of teachers day and expression of gratitude by all the students which began with a light enthusiasm and excitement. The program was conducted at 1 pm on zoom. The coordinators were Professor Frances Vaidya and Professor

Vaishali Dhaware. The compering for the session was done by B.Ed students – Shailaja Pandey and Shifa Naik. It began with paper reading on how teachers around the world managed to teach in the pandemic.

Mary Immaculate School group students presented Virtual greeting cards to all the faculty. Then storytelling was done by Holy Cross High School group on Sudha Murthy's book " How I taught my grandmother" which had a reflected the message on the hope and positivity from a teacher impacting the life of a student. A video representation by BCG School Group was done on how teachers can teach in any situation and difficulties. A teacher is self motivated, happy, smiling, and sails taking everyone together. A teacher is a silent warrior. Followed by a skit presented by HMPS School group on the theme "Naya Savera" with the message of importance of intrinsic motivation and usage of innovative teaching strategies in classroom. Melodious song by Sacred Heart School Group which had a message to thank the teachers in their lives for whatever they have done. A small video was presented by Mary Immaculate School Group on the difficulties faced by teachers in the pandemic. A beautiful dance performance was also done.

I. J. Patel School group presented paragraph reading on the importance of teachers in an individual's life. Greeting cards by all school groups with the theme of "best out of waste". The programme came to a conclusion with motivational remarks by Smt. Sabiha More, Asst. Professor GSB Smt. Surajba College of Education, she gave a mantra for life which is rankers of the past and thirst for knowledge should be there in teachers. Dr Judy Grace Andrews, Principal GSB Smt. Surajba College of Education appreciated everyone's efforts. She said teachers should have the right attitude and emphasised on Learning as a Lifelong process. The efforts of the students and teacher coordinators were encouraged and appreciated. Formal vote of thanks was delivered by Bhagyashree Badigi, F.Y B.Ed Student, followed by National Anthem, marking the end of the programme.

## Ms. Shirin Peace Vigil. Net

Shirin co-directs [PeaceVigil.net](http://PeaceVigil.net) which makes practical tools to counter prejudice and bigotry. With over 20 years of experience working as a peace educator, Shirin believes in peace as an achievable practical reality and not just an idea. For this, she digs into history and the contemporary world to study trends, practices and movements through which hatred was overcome. She then develops tools and training material based on this knowledge to promote and protect peace. In the peace education field, her style of teaching is specially polished as she uses interactive exercises, role play, story telling, songs, videos and quizzes which make learning fun and leave a lasting impression. Shirin has worked in many countries and co-directs Peace Vigil from South Africa, a place very special to her heart as it is where Gandhi began his journey as an activist of justice and peace. Shirin believes that laws protecting peace are only useful when the society as a whole believes in the values that make peace possible. She has immense faith in the power of the actions of the so-called common people in fighting hate and bigotry. The motto of Peace Vigil is Peace Needs All of Us.

## **Report on 8<sup>th</sup> Vajubhai Patel Memorial Lecture**

20<sup>th</sup> September, 2021

Monday

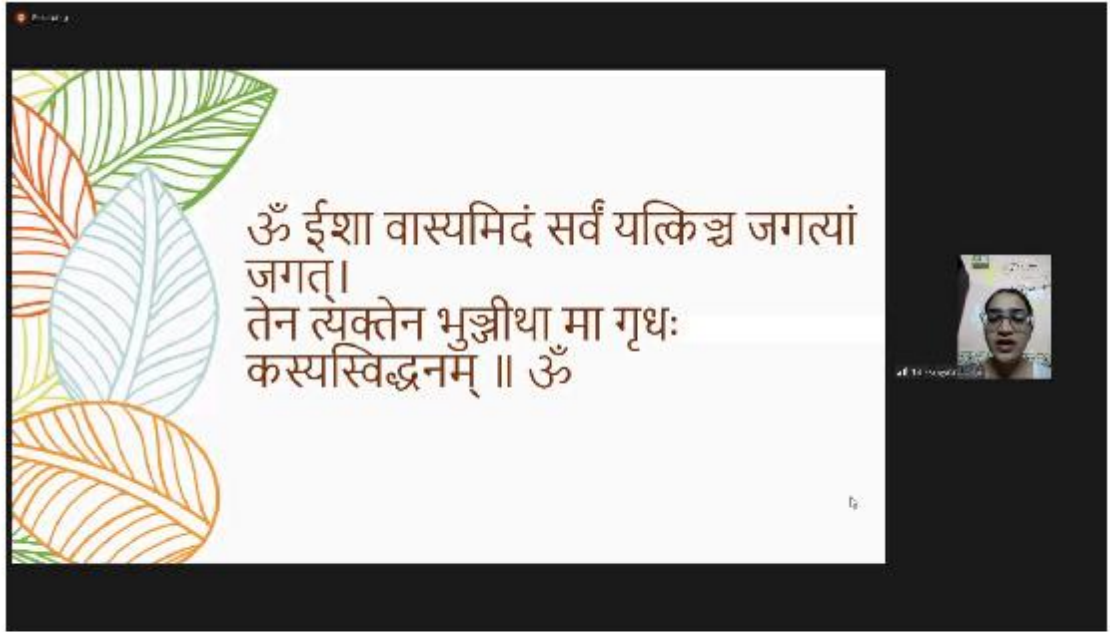

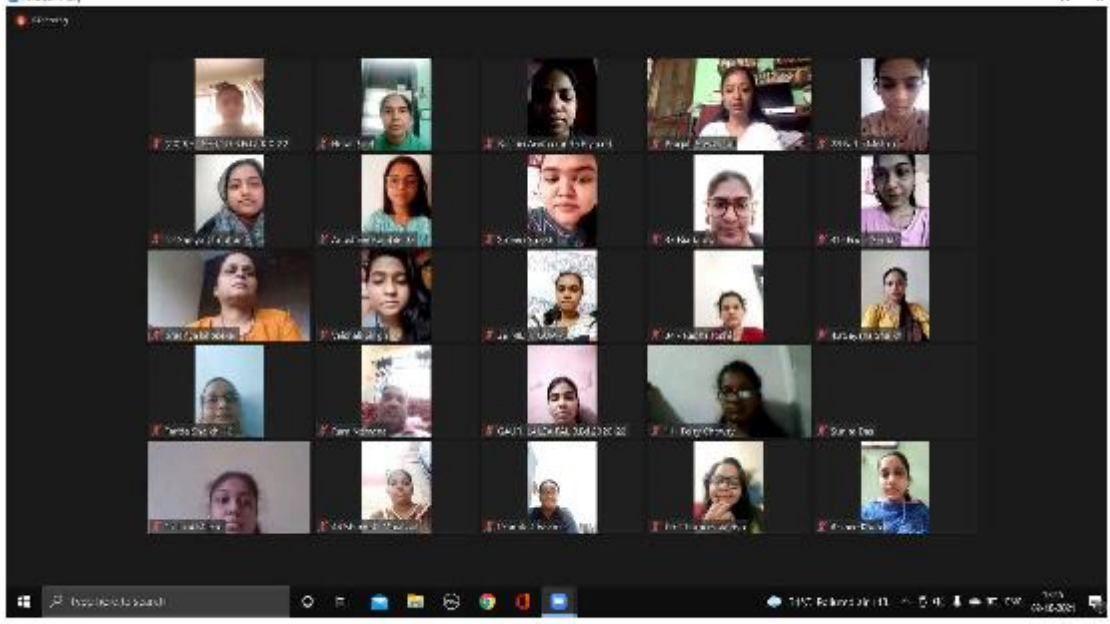

Indian Council of Basic Education (ICBE) and Gandhi Shikshan Bhavan's Smt. Surajba College of Education organized a memorial lecture for its founder member late Shri. Vajubhai Patel to remember him and his legacy as 8<sup>th</sup> Vajubhai Patel Memorial Lecture on 20<sup>th</sup> September 2021, Monday at 12 noon IST, via Zoom Meet. The memorial lecture was organized by I/C Principal Dr. Judy Grace Andrews and Ms. Vaishali Dhaware and Ms. Sabiha More who are Associate Professors of GSB's Smt. Surajba College of Education. Invitee of the lecture was Ms. Nupur Mitra, President of ICBE. Guest speaker of the lecture was Ms. Shirin, Peace Educator (Peacevigil.net).

Lecture was started with introducing the aim of the session by Prof. Sabiha More. As a tradition of our college, an event starts with the lighting of lamp. This tradition was performed by our guest speaker Ms. Shirin. The lighting of lamp was followed by the SarvaDharma Prayer justifying the theme of the lecture as we want to gain peace, we can achieve it by accepting all. A beautiful song was sung by Shifa Naik.

I/C Principal gave brief welcome address to the speaker, and teaching staff, non-teaching staff, students for attending the lecture. Ms. Nupur Mitra on the behalf of management of ICBE welcomed all and introduced us with the memory lane of Shri. Vajubhai Patel.

Our guest speaker Ms. Shirin started an interactive lecture about peace and told that how peace is not just living with harmony but it has broader aspect. She truly mesmerized our audiences by her way of speaking and 'Acceptance of diversity is the precondition for peace' was completely well elaborated in her lecture as she talked about the true sense of being diverse.

Further Prof. Vaishali Dhaware gave vote of thanks to our speaker and whole hearted participation of the audience was appreciated and the webinar concluded with the national anthem.

## Report on Gandhi Jayanti Celebration

02nd October 2021  
Saturday

Gandhi Jayanti was celebrated with an insightful session and great excitement by Gandhi Shikshan Bhavan's Smt. Surajba College of Education. 2nd October is a red-letter day for our institute not only because we follow Gandhian philosophy but also because it is the inception day of our college. The programme was organised online by Gandhi Shikshan Bhavan's Smt. Surajba College of Education on 2nd October 2021 at 11:30 am IST, via Zoom meet. The speaker for the day was Ms. Pragati Chaswal, founder of SowGood Farm. The coordinators of the webinar were Prof. Sabiha More and Prof. Priti Chandorkar. The webinar was hosted by Prof. Sabiha More who with her enchanting words made the programme all the more inspiring and compelling.

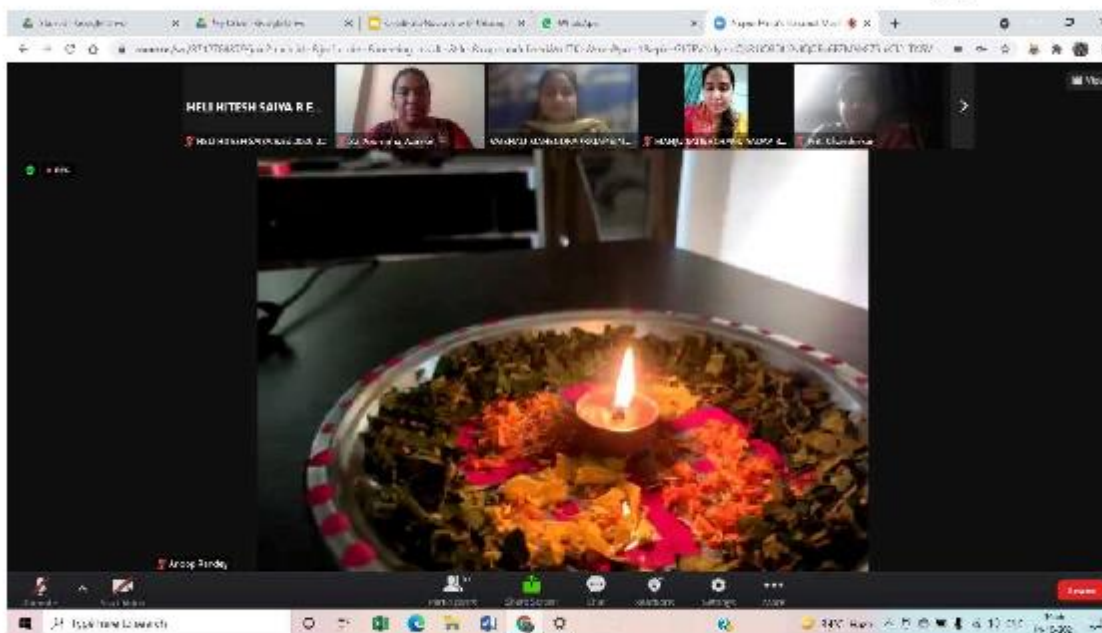

As a ritual of our institute, the webinar began by remembering the Almighty by singing the Sarvadharm prayers followed by the beautiful song "Vaishnav Jan to" sung by Bhagyashri Badigi, a student of our college. Following this was the Lamp lighting ceremony done by Ms. Pragati Chaswal. This was followed by a beautiful video representation of "Deepo Utsav" by Poornima Warriar, a student of our college. The video beautifully depicted how the people of Wardha and "Mahatma Gandhi International Hindi University" light diyas to pay tribute to the vision, values and principles of Gandhiji on the occasion of Gandhi Jayanti. A brief welcome address was given by our I/C Principal Judy Grace Andrews. Prof. Priti Chandorkar did the honours of introducing our guest speaker, Ms. Pragati Chaswal with her loving and inspiring words.

Ms. Pragati Chaswal is the founder of SowGood Farm, an organisation that not only grows delicious food but also believes that farm provides the perfect learning experience for people of all ages. She started her presentation by giving us a brief introduction of her organization and a video showing small children working on farms, growing food on their own. Through the video and her presentation we learned that learning takes place best in nature. We were amazed to see children of such a small age doing so well on the farm without any assistance. It was amazing to see how some

children who had a hard time doing simple math in class could do high level calculation in the field. It was inspiring to see them work with such enthusiasm. This with no doubt follows the Gandhian philosophy of Nai Talim, learning by doing.

It was an interactive session where the students interacted with Ms. Pragati throughout the session. Ms. Pargati threw light on the fact that there are so many things that we use in daily life that are so harmful to the environment and how we can recycle and compost garbage which will decrease the increasing amount of garbage as well as protect nature. It made us realise how we neglect our mother nature when it gives us so much in return. Our negligence harms the environment which in turn affects everything in nature. It was indeed an amazing and eye opening session. Next was the question-answer session where Ms. Pragati answered all the questions asked to her. A formal vote of thanks was proposed by Dr. Sunayana Kadle followed by the National Anthem which marked the end of the amazing webinar.

Navratri & Diwali celebration- 14/10/2021

## **DIWALI AND NAVRATRI CELEBRATION**

14<sup>th</sup> October, 2021

Thursday

The new semester began with great enthusiasm and energy, beginning with the celebration of navratri festival. The navratri programme was organized online by Gandhi Shikshan Bhavan's Smt. Surajba College of Education on 14<sup>th</sup> October, 2021 at 1:00 pm IST, via Zoom meet.

On 14<sup>th</sup> October 2021, the navratri celebration began with great zeal and zest. The event was well attended by all the enthusiastic students and faculty members in traditional attire. The programme was hosted by the b.ed students, Vaishali Singh and Manju Yadav. The celebration started with the lighting of the lamp by our I/C Principal Dr. Judy Grace Andrews followed by the prayer and mataji aarti by the Mary Immaculate School group, which created a joyous and peaceful atmosphere. The introduction to the festival began with a paper reading, by Ria Tauro which beautifully explained about the nine goddesses and the victory of 'Good over evil'. After which vishwambhari stuti, a Gujarati hymn that is sung after performing

mataji's aarti was melodiously sung by Darshana Makwana, which asks mataji to protect us and also helps in overcoming our worries and fears by admitting your faults to our Maa. Then with immense vigour, the H.M.P.S school group came up with the presentation on scientific temper behind the Navratri food. Developing scientific temper is of paramount importance, therefore they explained the reason behind avoidance of meat, garlic, onion and alcohol. It was also told how the fast was observed using alternative food systems brought from other continents. Various delicious recipes were displayed with ingredients that are used for fasting like sabudana, potato, Kuttu ka atta, makhana, sama grain, singhara which also showcased benefits of each and every ingredient.

Moving ahead with the programme, the holy cross school brought out the navratri celebration in West Bengal. The festival of navratri is incomplete without dance, Deepa and Poornima gave a power packed performance on dhuni naach. They highlighted the festivities in west Bengal, sindoor khela, different types of dishes such as chingri posto, kosha mangsho, Rasgulla, sondesh, Luchi etc. **Song by Bhagyashri-----**

Navratri is the festival of worshipping goddess Durga, other than that it also signifies the importance of nine colours. To explain the significance of colours the sacred Heart School group creatively explained through video presentation. The navratri celebration marks the essence of women empowerment, therefore the BCG school group presented on the unsung indian women personalities like Hima Das, laxmi sehgal, Sudha Murthy, Sona Kumar, Lakshmi Narayan Tripathi, Shabana Azmi, Aruna Asaf Ali and Roshni Mukharjee. After that a poem on "Nari shakti" was recited by Arfa Imran, which exhibited women taking charge of their own lives. Lastly all the school groups presented pooja thali decorated on the theme best out of waste.

Our Principal, Dr Judy Grace Andrews thanked the teacher coordinators and appreciated the efforts of the students through her motivating speech. The vote of thanks was proposed by Heli Saiya, after which everyone rose for the National Anthem marking the end of the navratri celebration.

## Vachan Prema Din

21st October, 2021

Thursday,

The event was organised by Gandhi Shikshan Bhavan's Smt. Surajba College of Education and St. Teresa's Institute of Education on 21st October 2021 via zoom meeting and it was live at YouTube as well. The college organized this webinar in order to sensitize the future teacher about reading. To inculcate reading habits in themselves as well as in students. The speaker of the day was Madam Jyotsna Sawant. The programme coordinators for the webinar were Dr. Pradnya Bhosekar, Asst. Prof. of Gandhi Shikshan Bhavan's Surajba College of Education.

On 21st October 2021, the webinar started online with great enthusiasm. The event was hosted by Dr. Pradnya Bhosekar. After the approval of the principal the webinar began with the prayer which was presented by St. Teresa's Institute of Education. The prayer was followed by a brief welcome address by the student of the St Teresa Institute of Education explaining the reason to celebrate the " Vachan Prema Din " Dr Pradnya Bhosekar. Inclusion of the book presentation of Dr Kalam added more energy and curiosity to the students.

Dr. Shakuntala Nighot then welcomed the speaker Jyotsna Sawant Ma'am, with her kind and inspiring words. Although there were problems with connectivity, Ma'am Jyotsna had a positive smile and enthusiasm for the program while addressing the audience. The speaker shared the importance of reading. As Madam instructed students before the webinar regarding the requirements for the session there was no problem of coordination between students and teachers.

The session started with Reading speed, how to calculate the reading speed and the different aspects of reading speed which really surprised us looking at the results of reading speed. Also mam showed that reading speed depends on the topic we read and the enthusiasm of the reader. Madam also gave techniques for the students to increase their reading speed. The session was interactive and madam involved students in each exercise.

At the end of the exercise madam taught us how to draw mind maps of different topics and importance of it by giving easy examples and also explaining minute details about the diagram which is really important to know as a teacher. She also gave insight on how to read fast and

what to avoid while learning so as to get the pace. Madam also suggested some websites and tools which will assist students while reading.

The efforts of the students and teacher coordinators were encouraged to read more and in a better way which is the need of the procession. She also solved students' questions with enthusiasm and appreciated the efforts of students, teachers and the principal of both the college for organizing such events. At the end Dr Cerena thanked the guest and best library user of the institution announced for St. Teresa Institute of Education. The vote of thanks was proposed by Gayatri Joshi , after which everyone rose for the National Anthem marking the end of the webinar.

23rd October 2021  
Saturday

The session started with the introduction of the program .The topic of the webinar was "Recognition of students mental health problems by teachers" .It was organised by Gandhi Shikshan bhavan's Smt Surajba College of Education on 23rd October,2021 at 11.00 am IST, via zoom meet .The college organized this webinar with NKT National College of education for women (Autonomous) Chennai and Edu Vacancy

The college organized this webinar in order to recognize students' mental health problems by teachers.

The programme coordinator were Dr.S Chamundeshwari principal of NKT National College and Dr.Judy Grace principal of Gandhi Shikshan bhavan

The host of the webinar was Mr.Kapalesh from Edu Vacancy .The host introduced Dr.Somini Mehta clinical psychologist in Hinduja hospital Mumbai who was the speaker of the day.

Mr.Kapalesh from Edu vacancy warmly welcomed the speaker of the webinar.

The speaker started with a positive energy and a polite smile.Each and every term were explained very well. The presentation was very informative in between the explanation she even shared her own experience and how she helped a child to overcome his difficulty. She was up to date and well informed when the questions were asked

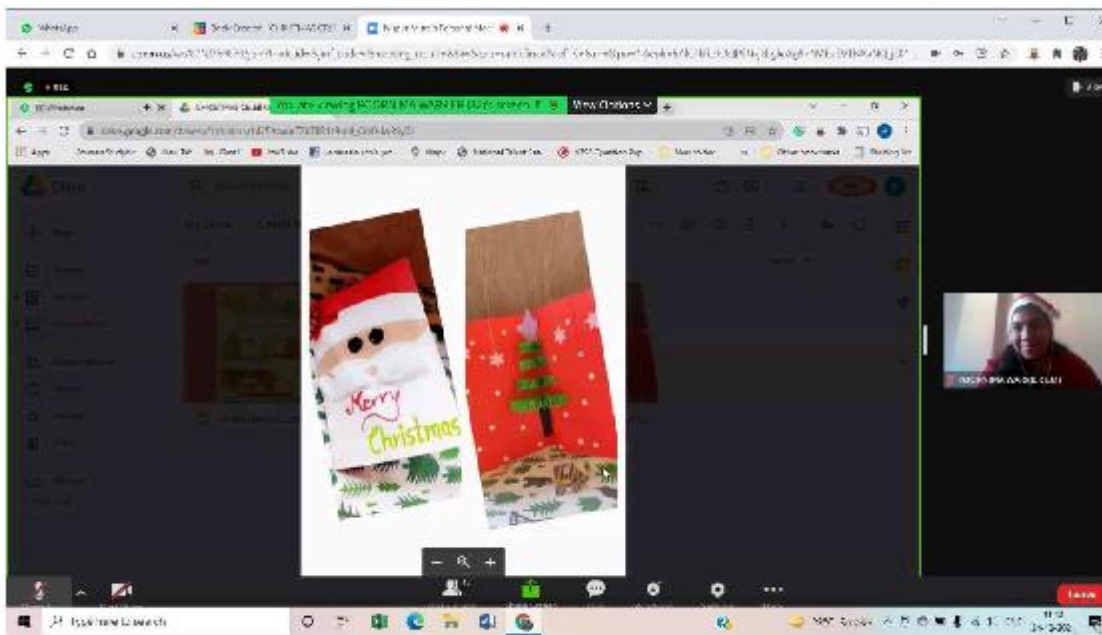

It was very kind of her for giving us time from her busy schedule and give us a lot of knowledge and information and how to as a teacher we can help the students to overcome any problems or difficulty faced by them because of their mental health .

She even gave some points to follow and tips to the teacher which was quite helpful.

Then the programme was ended with some kind words said by Dr Judy Grace Andrews Then everyone was told to switch on their videos to capture the amazing moment and it was the end of the webinar.

Christmas celebration- 24/12/2021

## **CHRISTMAS CELEBRATION**

24<sup>th</sup> December, 2021

Friday

With an eventful year coming to an end we say goodbye to this year with a celebration of hope and joy.

The Christmas Celebration was organized online by Gandhi Shikshan Bhavan's Smt. Surajba College of Education on 24<sup>th</sup> December, 2021 at 10:00 am , via Zoom meet.

Christmas reminds us of the importance of giving and sharing with family and friends. On 24<sup>th</sup> December 2021, the Christmas celebration began with great enthusiasm. The event was well attended by the principal ma'am, Professors ,enthusiastic students and faculty members by wearing beautiful dresses. One could easily notice the excitement of Christmas in the students eyes. The programme was hosted by the B.Ed. students, Anoop Pandey , Anushree Kamble. Prayer can elicit feelings of gratitude, compassion, forgiveness, and hope, all of which are associated

with healing and wellness. So the celebration started with the prayer by the HMPS School group, which created a joyous and peaceful atmosphere. The introduction to the Christmas celebration began with a paper reading, by Sonia Bharko which explained about the Christmas is a festival full of culture and tradition. The festival entails a lot of preparations. Preparations for Christmas involve a lot of things including decoration, food items and gifts for family members and friends.

Then I.J. Patel High School Group performed skit on Birth of Jesus Christ! The birth of Jesus hold particularly special meaning for us in that because Jesus overcome, so can we. He was able to live and endure this world in human form, teach and love others. .After skit performance a carol (we wish you a merry Christmas), was melodiously sung by the Mary Immaculate School Group. The word carol actually means dance or a song of praise and joy. We sing Christmas Carol's because they are way to telling the narrative story of the Nativity and the birth of Jesus Christ. Moving ahead with the programme, the Holy Cross School Group performed a skit on papa panovs special Christmas! In this story Papa Panovs is a lonely shoemaker who's only wish is to worship the Christ child and give him the finest pair of shoes he's ever made. On Christmas Eve he has a dream that he hears the voice of God telling him to look out for Jesus during the following day. The story focuses on his reaction to the people that he meets on Christmas day. The story denotes the actual spirit of chirstmas that is giving without thinking. It was followed by a video presentation from sacred heart school, lifting the fun level by singing (Joy of the world and Rudolf the Red Nose Reindeer.) Everyone sang along and enjoyed. Now it was time for the actual fun time of the day began with Bombay Cambridge school group making everyone participate us in a fun round of games everyone played bingo and as a family everyone was a winner. And they explained what was the essential of this game and why was it played. Like the angles in the image rejoiced the baby's birth, and cookies denotes to be surrounded by family on such occasions. After the fun games round we had Mary Immaculate school group guiding us through the true meaning of Christmas. The tree that stays green through year indicates the joy and happiness that should last all years long.

Then we had the HMPS group taking us through a trip around India letting us explore the different traditions of Christmas celebration throughout India. Trip to Kerala, Shillong, Bengaluru and even the most famous metropolitan city Mumbai it was a

fun adventure to be at. Another last we had special visit from Santa Claus wishing us all the good spirit of Christmas and hoping for a joyful New Year. In the end our Principal Dr. Judy Grace Andrews gave a thoughtful acknowledgement about the programme wishing us all the students and faculty merry Christmas and a happy new year.

**CHHATRAPATI SHIVAJI MAHARAJ VASTU SANGRAHALAYA**  
**THINK MUSEUM WORKSHOP**

**DAY 1 (27/12/2021)**

The joy of learning something new, excitement to receive a new sense of experience encapsulated on the first day of the workshop. A comfortable and inspirational environment, motivational facilitators and a sense of positivity, the workshop began with an introduction of the museum, about its infrastructure, history, and some interesting facts. An overview of the "Museum on wheels" project was also provided, especially about the initiative, its procedure, the exhibitions and the journey so far. Followed by a fun game of "Hot seat", which was thoroughly enjoyable, informative and interesting for one and all. To understand the core of the museum and its origin, an interesting session was rendered on the same. Beginning with the definition of the museum as provided by the "International Council Of Museums", its origin tracing back to the "Age of Enlightenment" and the existence of "Cabinets of Curiosity", the establishment of the first-ever museum as per the definitions, along with some of the significant museums and its types.

The workshop for the day not only included auditory and visual experience but moreover extended to a tour in groups through three galleries in the museum: Coins Gallery, Jewellery Gallery, Danam Gallery. Observations on the most liked, modifiable and such other aspects were discussed in the post-tour session. The multi-dimensional learnings throughout the observations led to an enlightening discussion with new suggestions and possibilities. To conclude, the workshop for the day ended with positive anticipation for the upcoming days of new learnings and experiences.

**DAY 2 (28/12/2021)**

Day 2 started on a fresh and positive note and everyone was ready to gather more hands-on experience. Our session started with the ppt presentation where we took a virtual tour of the museum. We studied the new definition of museums and understood the history of museums and also understood how museums have changed over time. We also learnt that the museum is not only restricted to the subject of history but it has a broad aim in society. The aim of the museum is to raise awareness on various topics which is the need of the hour.

We studied that every exhibition is different depending on the Aim of the exhibition according to the need. Day II was focused on understanding the exhibition to be planned on our campus, in which the main motive was to understand the purpose of organizing the Exhibition. Why do we visit museums? where more emphasis was given on whom we are targeting the exhibition? What can be the theme, how can we arrange objects, how space can be utilised for setting up the exhibition.

There were several activities planned on day 2. In the first activity everybody got a replica of objects from the museum where we had no clue what the object could be. The idea of arranging this activity was how can a person think about an object at the first look. We got 10 minutes to interpret everything about the replica which we got. Everyone was excited we wrote all the points on the paper. Whatever we have understood by looking and touching the object. After we discussed every object in the group we explained the points which we noted.

After discussion, we also looked at the proper history of each object which was given for study and also studied some extra objects. It included understanding the history of the object place of exertion. The CSMVS team was really enthusiastic about giving the whole knowledge about each object. The next activity was a reading activity where we provided a sheet where we understood the speed of reading and how it can be utilized in our workshop. After finishing the work the main task was to select items in our exhibition where the challenge was the selection of only 10 items from the group of 25 and deciding the theme of the lesson. It took a lot of brainstorming and discussion to decide the theme of the exhibition and the arrangements of objects according to the theme.

We enjoyed the lunch break where everybody shared the tiffin and breakfast was arranged by the CSMVS team. We all can agree that it's a really challenging job to arrange the exhibition. Afterwards, we visited different galleries of the Vastu Sangrahalaya.

### **DAY 3 (29/12/2021)**

Highlights of the Day 2 workshop was object selection for the exhibition and arranging the object according to the selected theme of the exhibition which is "Million REASONS TO LOVE Indian Subcontinent".

Day III workshop started with a discussion on the importance of museums. After that, we studied the reasons for designing the exhibition and the arrangement of objects according to the requirement by using different pedestals and mounts.

We studied how to make an exhibition and the reasons for planning the exhibition and the target audience for the exhibition so that we can get ideas for planning. In which we also studied that different Target audiences require different designs of the exhibition. After learning how to design the exhibition the exciting part comes, as we learnt how to make the exhibition more lively through activities and making arrangements for different types of challenged people as we study inclusive education.

We also studied how to make interesting lesson plans which include the active participation of students and catering to enthusiasm for the students.

Which included the following activities such as.

- Storytelling using origami paper
- Storytelling using drawing
- Hot seat activity for object interaction.
- Create story with pictures
- Direct questions and indirect questions.

We also studied theme-based exhibitions like gender equality and language development through the museum. After that, we studied how we can relate the chosen objects with our curriculum and we connected every object to different subjects such as language, maths, science, geology etc.

To understand the object arrangement, we visited the exhibition bus where we studied different designs, use of the bus as per need and arrangements of objects. And best utilization of space and the use of lights to focus and portray the object, highlight the details and show different aspects of the objects.

The motto of our workshop is to understand the importance of museums and planning exhibitions in our school. After learning how to make an exhibition we distributed all students in 3 groups

- Curator team
- Designing team and promoting team
- The educator and activity team

As planning and execution of exhibitions is an important aspect, work is divided into individual groups.

Then all team members started working with the help of the tutors, tutors were kind enough to show us different aspects of the exhibition and Thomseana mam gave us the kid's section tour where we came to know various activities for kids and the execution of the workshop for small kids which part we shouldn't discuss and create an interactive exhibition.

After returning to the exhibition hall we fixed the activities and learnt how to coordinate with the other teams. Discussing the execution of activities and arrangement of the workshop, Professor Sabiha more ma'am guided us for the further planning of the workshop, the minute details of the workshop such as time interval, the audience which we are targeting. Things that we must include so that they will relate to the students' curriculum. Within the group, we distributed the work as per skills.

At the end of the exhibition, the curator group quickly arranged the objects and gave a quick introduction and different aspects of our workshop where all teams sat together and gave their views and cleared doubts with the help of CSMVS teachers.

At last, we thanked the CSMVS team for arranging such a great interactive session. We also approached them to visit our exhibition and they agreed without hesitation.

We thoroughly enjoyed our workshop and it was a one-time experience and a great opportunity to be a part of the CSMVS family where we all learnt a lot of minute things which we are totally unaware of in museums. We would like to thank our Principal Dr Judy Grace Andrews for permitting us to such a great workshop. And special thanks to Professor Sabiha more ma'am for being kind enough to give us exposure to such an amazing workshop and guiding us in every step.

The image is a screenshot of a Zoom meeting. The main window displays a presentation slide with a yellow background and red and green text. The slide is titled "IQAC-PLACEMENT CELL" and "GANGWATI CHILDREN'S DISTRICT'S". Below this, it says "Smt. JYOTI K. CHAVAN COLLEGE OF NURSING". The main heading is "VALUABLE COURSE" in large red letters, with "ESSENTIAL SKILLS FOR EMPLOYMENT" written in a curved banner below it. The slide also lists the topic "FACE THE WORLD", the resource person "MARY MICKELA", the date "22TH MARCH 2021", and the time "3.30 pm-4.30 pm". At the bottom, it identifies the convener as "DR. JUDY GRACE ANDREWS, L.C. PRINCIPAL" and coordinators as "SMT. KISHALI DAKHANE" and "DR. FRANCIS KADYA".

On the right side of the Zoom window, there is a video feed of a woman with long dark hair, wearing a black top. Below her video, the name "Principal Gandhi" is visible. The Zoom interface includes a top navigation bar with options like "Upgrade", "Share", "Join", "Collaborate", "Publish", and "Download". A bottom control bar shows a play button, a mute icon, and a timer indicating "1:56 / 1:27:24".

## Report on Varsha Mangal Celebration.

Varsha Mangal Celebration in our college. Smt. Surajka College of Education we celebrated Varsha Mangal at 7 September 2018 this we celebrate as a festival of our college. Varsha Mangal utsava, a grain festival formally introduced by Rabindranath Tagore in 1928 at Shanti Niketan to celebrate the monsoons. This was to inculcate value and respect for Monsoon for grain and same to convey for our school to our student has a teacher.

for the Program

I was a companion with my friend Dolly. to celebrate this wonderful festival we have different program like 1st we started with prayer by pay respect to God and began the program then we have prayer dance by sister and group in that I learn small things can make big effect. then Alviya enlightened us with lot's of information by paper reading. the energy added by vaishnavi's song. then solo dance by the Nilakshi after that we learn that Rot education is not good for any body through tote Ki shiksha by Mihay and group. the poetry appreciation by Anjum and group. then Song by

FOR EDUCATIONAL USE

Ravindra and group. Kale megha Kale megha the we have group of people who present the poetry and express their view about grain and how it spread joy for people. then dance by Ankita and group. the Drama by Rehamat and group Kabulinwala from which I learn that relation and humanity do not need blood relation or country it can be with any body. then solo dance by Ankita. and Song by Iram and group. then dance by Tabinda and group false tal Mila.

At the end we had we had Bangali Khichadi which was yummy prepared by staff member and wash out in backyard.

Through this program I learn many things and get more information about varsha mangal and goodness about the varsha mangal. different values through dramas and songs. the we windup the program.

International Colloquium on Environmental changes multifarious issues and changes

## **Report Reading of Interdisciplinary International Colloquium on Environmental Issues and Challenges**

As George Bernard Shaw said, "Progress is impossible without change and those who cannot change their mind cannot change anything". In order to create awareness and change the mindset of the people GANDHI SHIKSHAN BHAVAN SMT. SURAJBA COLLEGE OF EDUCATION organized an International colloquium on Environmental Changes- Multifarious issues and Challenges.

It is rightly said that Prayer does not change God but it changes him who prays. This International colloquium on Environmental Changes- Multifarious issues and Challenges began with the blessings of the Almighty followed by the lighting of the traditional lamp by the dignitaries.

The principal Dr. Ratnaprabha Rajmane welcomed the dignitaries gave a brief introduction about them and she mentioned the varied and valid topics of the international colloquium. Prof. Vaishali Dhaware introduced the institution to the dignitaries.

The keynote speaker Prof. Chandra very lucidly spoke on the topic Prophets, Sanyasi and Middle Class Consumption. He made us aware and also provided some suggestions regarding Global Warming.

Mrs. Jui Pethe spoke on Anjaneri Hill: A unique biodiversity. She very beautifully spoke about the flora and fauna of these hills and made us realize its importance which was followed by a question answer session wherein students raised their doubts and were clarified by the dignitaries.

After lunch a skit on Save water was presented by the B.ed College of Smt. Surajba College of education. 27 papers were received from all parts of the country out of which 9 presented their research based papers.

Paper Presentations were presented on following topics:

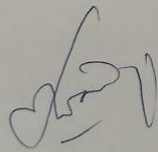

Reviewing articles on climate change in Mumbai,

- Creating awareness about saving water through Nai Taleem experimental learning.
- Conceptual paper on factors of sustainable clothing that reassures environmental welfare.
- Sustainability through adaptive reuse and upcycling.
- Climate literacy and climate education.

Parellely a Student Discussion on Global Issues was organized wherein student teachers of different B.ed Colleges spoke on their perception of Global Warming. The students broke into small group to discuss social issues that India and USA faces. On the whole it was an intellectual feasting wherein we created an awareness of the multi farious issues of Environmental changes

Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

10 responses

1. Some teachers do ignore students with poor English language, which they should not do because it demotivate us. Secondly at last moment we are so much in pressure to complete all the tasks and assignments because university exam preponderance which they should inform earlier to complete the task. Thrid teachers discuss with studenta their marks and how they are evaluated and also tell students wherew they need to work more. Thats it other wise all the teachers are veev motherly and loving towards us.

Personal attention, constant guidance

I don't think there's any suggestion required for improvement

.

Teachers are well updated with the content.

The teaching is very good

Our teaching-learning process is very nice. Teachers motivate us to do better and encourage to try new things.

The classes, assignments submissions, essay nas class tests, could be planned more systematically and in advance.

As a current student, I have been thoroughly impressed by the college's commitment to excellence in all aspects of education, and I wanted to take a moment to acknowledge the exceptional work being done by the entire college community.

1st plz complete the portion early and not in fast mode in last becoz it is difficult to grasp 2nd plz don't give the assignment so late, be at little early as in last it is very difficult for the students to grasp and last plz understand student, sometimes they really don't understand and they need your help, it was seen very little, but yes.

19 responses

2. How well did the teachers prepare for the classes?

 Copy

19 responses

### How well were the teachers able to communicate?

 Copy

19 responses

### The teacher's approach to teaching can best be described as

 Copy

19 responses

### Fairness of the internal evaluation process by the teachers.

 Copy

19 responses

### Was your performance in assignments discussed with you?

 Copy

19 responses

### The institute takes active interest in promoting internship, student exchange, field visit opportunities for students.

 Copy

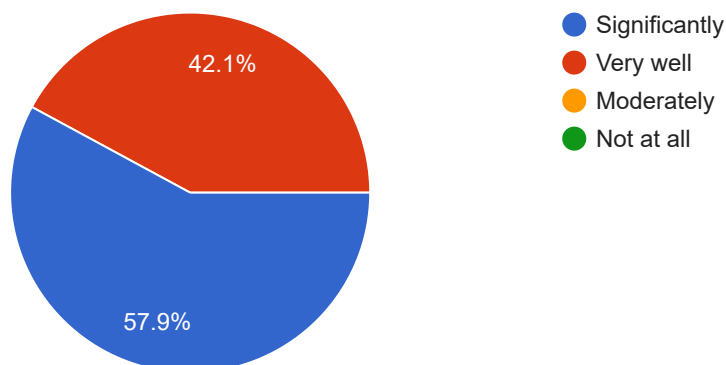

19 responses

### The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth.

 Copy

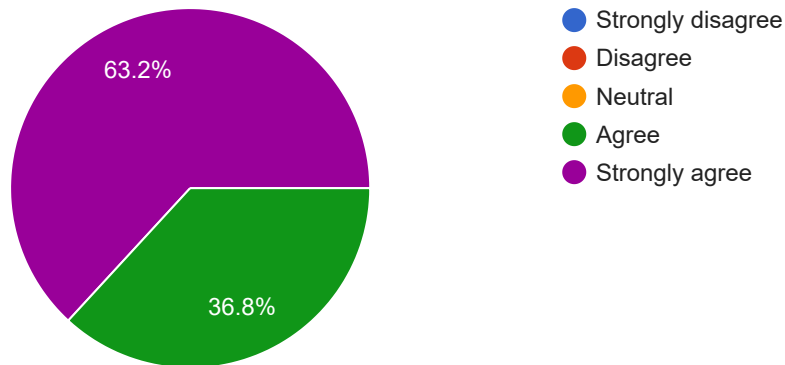

19 responses

The institution provides multiple opportunities to learn and grow

 Copy

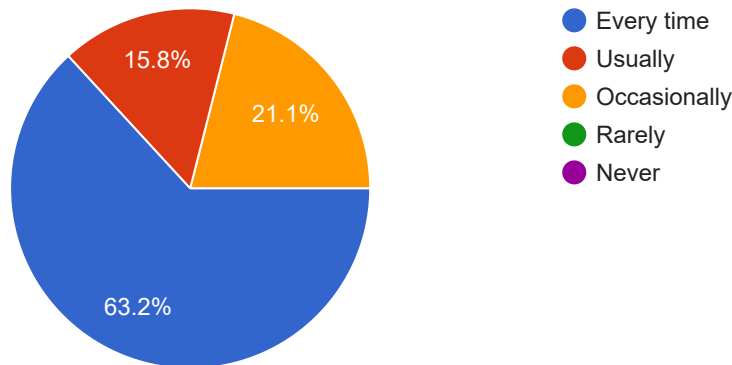

19 responses

Teachers inform you about your expected competencies, course outcomes and programme outcomes.

 Copy

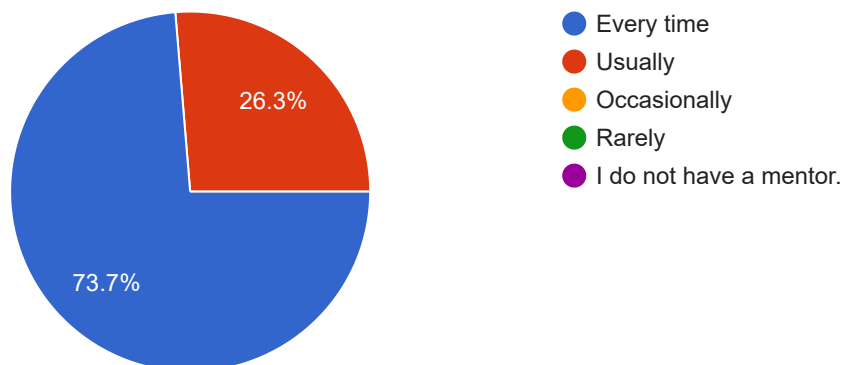

19 responses

Your mentor does a necessary follow-up with an assigned task to you.

 Copy

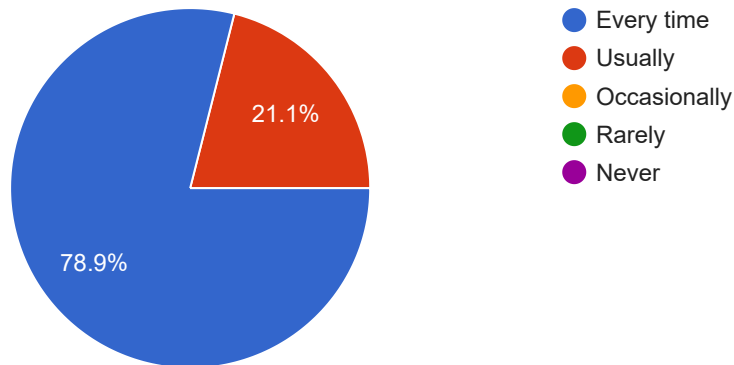

19 responses

The teachers illustrate the concepts through examples and applications

 Copy

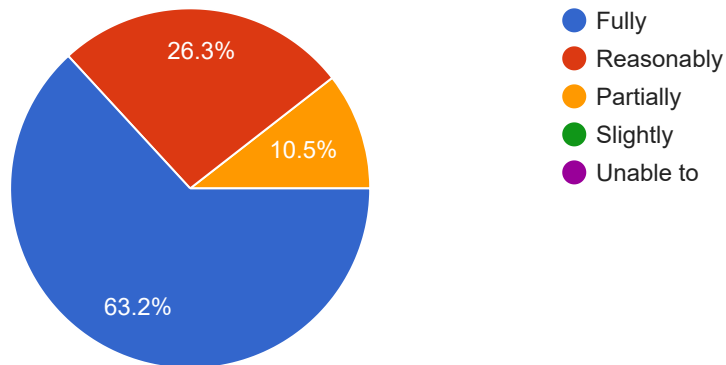

19 responses

The teachers identify your strengths and encourage you by providing right level of challenges.

 Copy

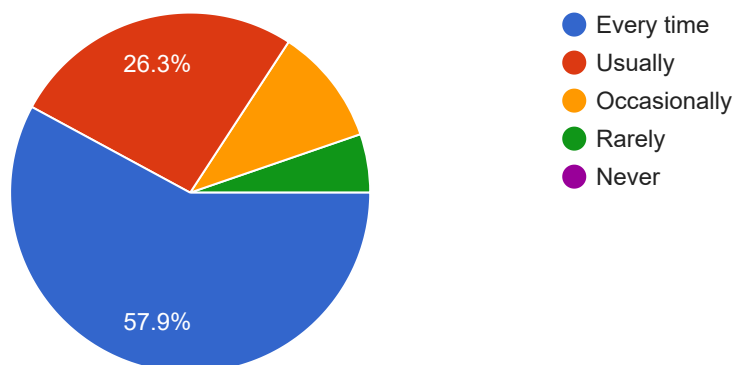

19 responses

Teachers are able to identify your weaknesses and help you to overcome them.

 Copy

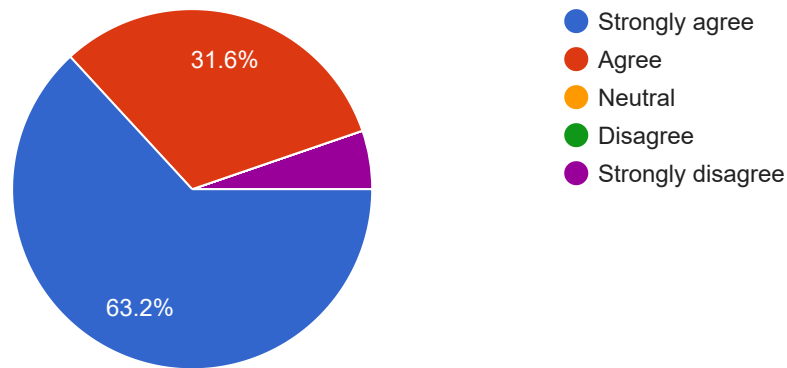

19 responses

The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process.

 Copy

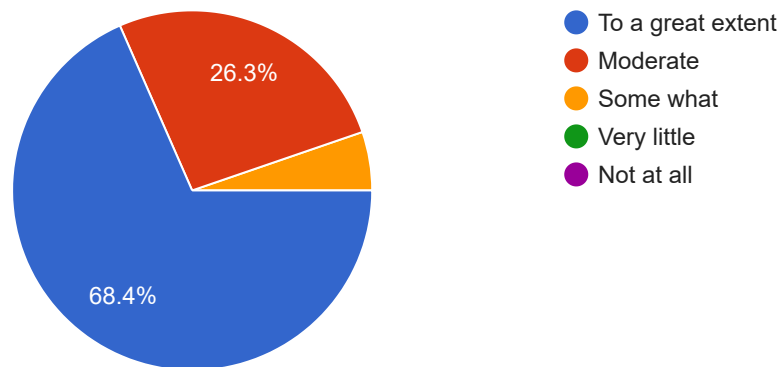

19 responses

The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences.

 Copy

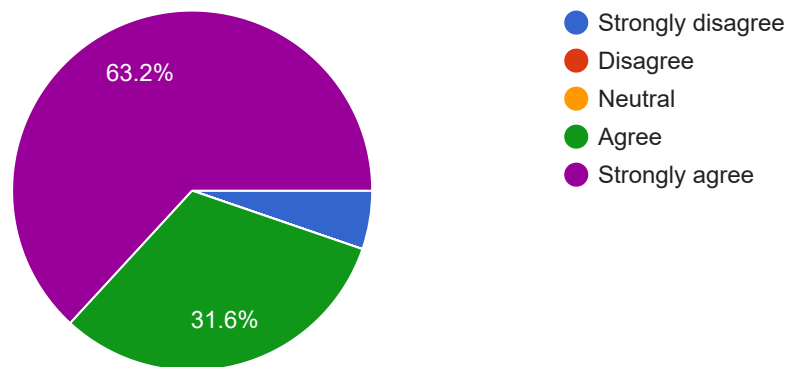

19 responses

Teachers encourage you to participate in extracurricular activities.

 Copy

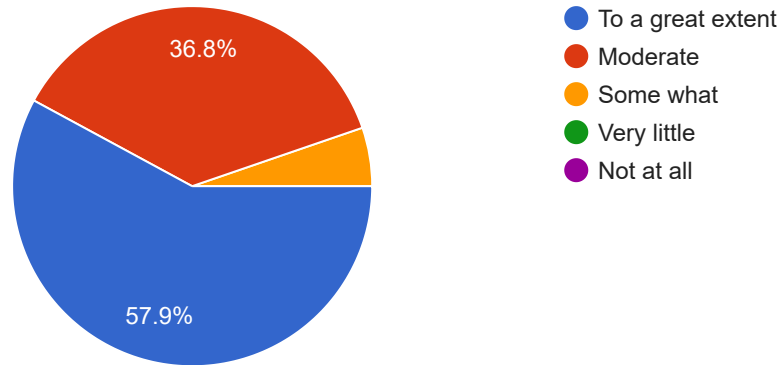

19 responses

Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work.

 Copy

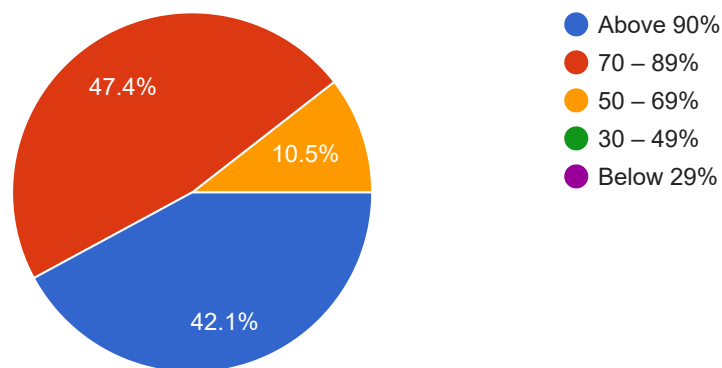

19 responses

What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.

 Copy

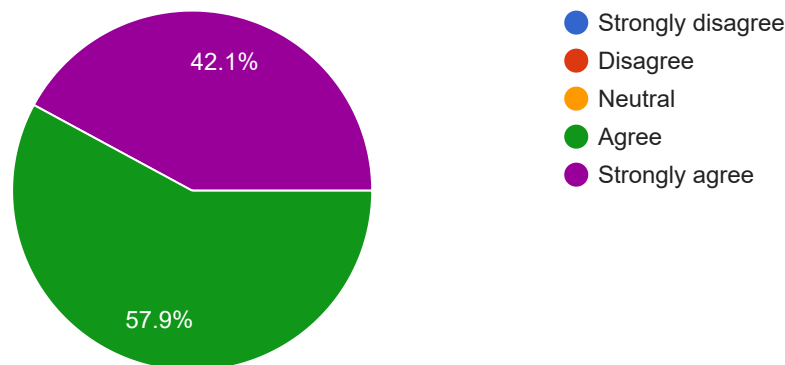

19 responses

The overall quality of teaching-learning process in your institute is very good.

 Copy

19 responses

Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

11 responses

All the Teacher's should conduct regular class assessments. All the teachers should be present in the classes on time if not the class should be informed. The Teacher's should not target the students based on their personal issues. There is a lot of distress among the staff members which leads to conflict and children are pushed into such conflicts. Teacher's should know how to draw a boundary between their professional and personal life at anytimes. Just by Saying things won't be done. Teachers should put things into practice.

Very effective in co operating with the students to cater their needs.

Good

All good

Everything is perfect

Sometimes the teachers don't listen to student problem should understand the students also

Few teachers are not well prepared with the content and due to the lack of clarity of content it affects the student from the exam point of view. Students are afraid of keeping their point of view as few teachers do not take it in a positive way. Few teachers make use of ICT and various methodologies whereas few make students to form groups and there is no explanation given on behalf of the teachers side.

Teacher must be unbiased, and give placements for students, and be more empathetic towards students

Teachers should give equal chance to each students in all activities.

my all lovely teachers were well prepared their content. our institute fully well equipped technology. There all staff ready to help them. our teacher always motivate them to participate. In this institution really I learn of lot. This institution provide me lot of platform

Firstly Fast pace completion of content should be avoided as it takes a lot of time for us to later comprehend it. Secondly expecting the students to explain the content with maximum research & group discussion should be avoided as it's not always possible for the students to do it coz of very less content availability. Third of all an appropriate content for examination propose should be provided as it becomes very difficult otherwise to prepare for it.

**THANK YOU FOR YOUR VALUABLE FEEDBACK . IT WILL SURELY HELP US TO IMPROVE.**

# 8<sup>th</sup> Vajubhai patel memorial lecture- 28/09/2021

**Ms. Shirin Peace Vigil. Net**

Shirin co-directs [PeaceVigil.net](http://PeaceVigil.net) which makes practical tools to counter prejudice and bigotry. With over 20 years of experience working as a peace educator, Shirin believes in peace as an achievable practical reality and not just an idea. For this, she digs into history and the contemporary world to study trends, practices and movements through which hatred was overcome. She then develops tools and training material based on this knowledge to promote and protect peace. In the peace education field, her style of teaching is especially praised as she uses interactive exercises, role play, story telling, songs, videos and quizzes which make learning fun and leave a lasting impression. Shirin has worked in many countries and co-directs Peace Vigil from South Africa, a place very special to her heart as it is where Gandhi began his journey as an activist of justice and peace. Shirin believes that laws protecting peace are only useful when the society as a whole believes in the values that make peace possible. She has immense faith in the power of the actions of the so-called common people in fighting hate and bigotry. The motto of Peace Vigil is Peace Needs All of Us.

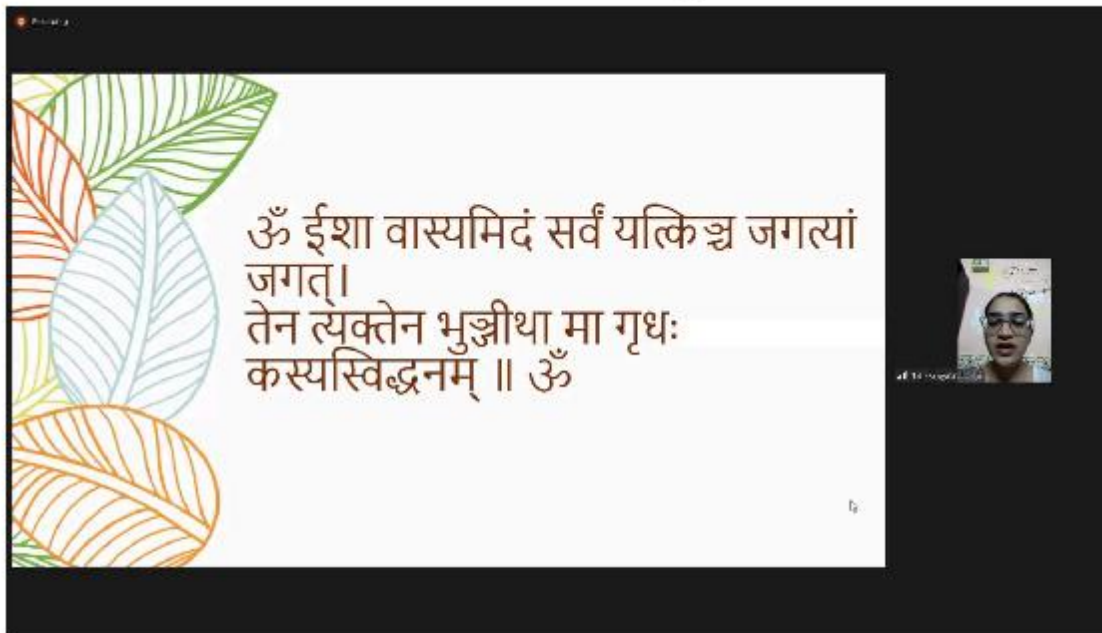

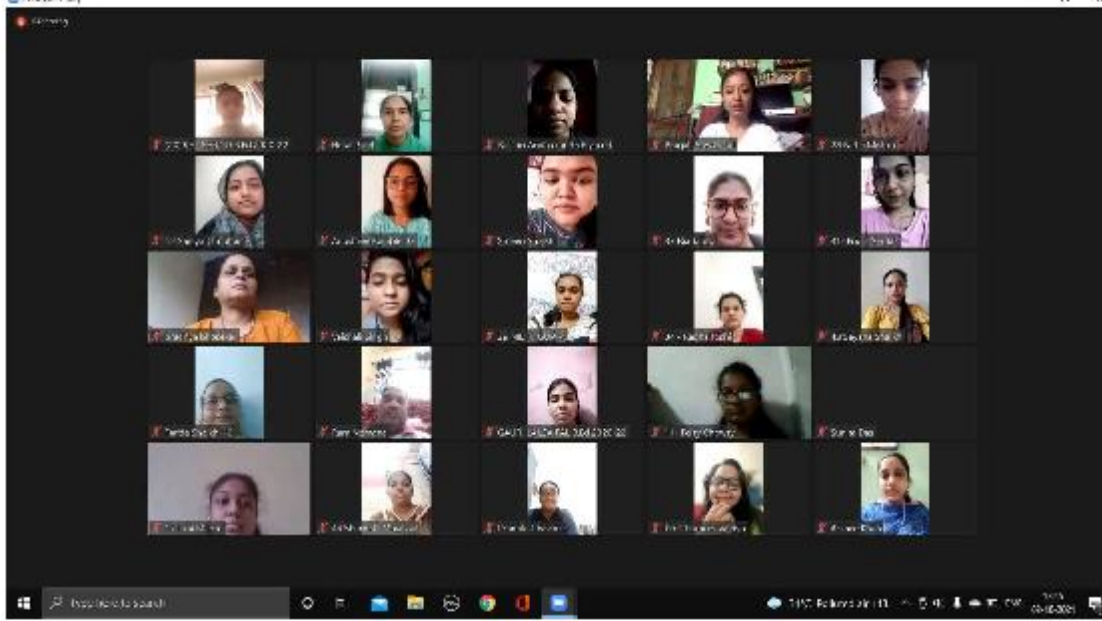

The screenshot also shows a Zoom meeting interface with a video feed of a woman on the right and a toolbar at the bottom.

The screenshot shows a Zoom meeting grid with 25 participants. The participants are arranged in a 5x5 grid. The names and initials of the participants are as follows:

Shirin Vigil	Shirin Vigil	Shirin Vigil	Shirin Vigil	Shirin Vigil
Shirin Vigil	Shirin Vigil	N	P	P
M	Shirin Vigil	K	Shirin Vigil	S
U	S	Shirin Vigil	Vishal Singh	S
R	Shirin Vigil	S	pradnya	Shirin Vigil

The screenshot also shows a Zoom meeting interface with a toolbar at the bottom.

Gandhi Jayanti- 02/10/2021

# Navratri & Diwali celebration- 14/10/2021

Vachan prerna din – 21/10/2021

# Eduvacancy Session- 23/10/2021

The screenshot shows a Zoom meeting window. The main content is a presentation slide with the following text and layout:

- Top header: **TEACHER, I NEED TO TALK**
- Section title: **Supporting Students' Mental Health**
- Six colored boxes containing text:
  - Teal box: **Modeling healthy behavior and coping strategies**
  - Orange box: **Developing and practicing coping skills**
  - Grey box: **Demonstrating healthy communication**
  - Light blue box: **Providing problem-solving skills**
  - Red box: **Seeking and offering support**
  - Dark red box: **Building trust, "safe spaces"**

On the right side of the Zoom window, there is a video feed of a woman with long dark hair, wearing a white top, speaking. The background behind her includes a world map and some books on a shelf.

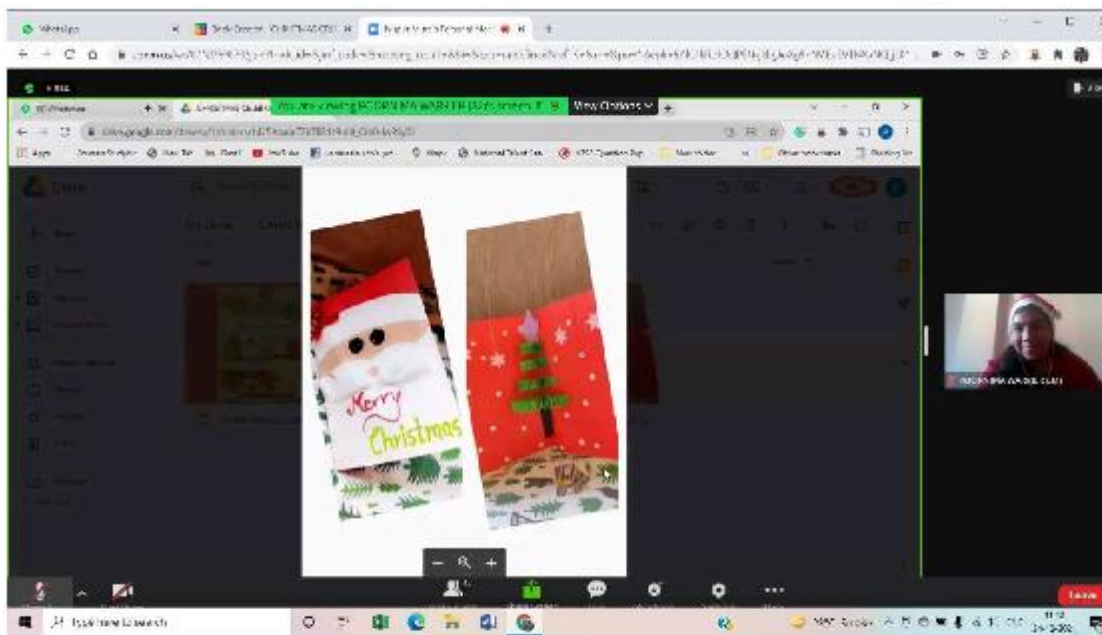

At the bottom of the Zoom window, the Windows taskbar is visible, showing the time as 11:02 AM on 10/23/2021.

This screenshot shows a Zoom meeting grid with 20 participants. The participants are arranged in a 4x5 grid. Each tile shows a video feed of a participant, with their name and profile picture visible below the video. The participants include:

- Row 1: A man in a blue shirt, a man in a white shirt, a pink box with the letter 'A', a woman with long dark hair, and a woman with glasses.
- Row 2: A woman in a white shirt, a woman in a blue shirt, a woman in a white shirt, a woman in a white shirt, and a woman in a white shirt.
- Row 3: A man in a white shirt, a woman in a white shirt, a woman in a white shirt, a woman in a white shirt, and a woman in a white shirt.
- Row 4: A man in a white shirt, a woman in a white shirt, a woman in a white shirt, a woman in a white shirt, and a woman in a white shirt.

The Windows taskbar at the bottom shows the time as 12:07 PM on 10/23/2021.
